	Type	Sub-Type		Relevant Rule(s)	Assessment Summary	Activity Status	Relevant Objective	Relevant Rule(s)	Assessment Summary	Activity Status	Relevant Rule(s)	Assessment Summary	Activity Status		
CRC021091	Water Permit	Take	To take water from the Rakaia River at a maximum combined rate of 40 cubic metres per second via either the Rakaia water intake system, or the Ashburton Community Trust water intake system, for the purposes of irrigation of land within the Central Plains Scheme Area and/or Mid-Canterbury, for water storage, and for ancillary purposes associated with the operation of the Central Plains Water Enhancement Scheme and the Ashburton Community Water Trust Scheme. The combined take may include water allocated to another water user that is not being taken, or any water in a higher priority band that has not been allocated, provided that the water allocation rules in the National Water Conservation (Rakaia River) Order are complied with. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Obj WQN1 Pol WQN4 Rakaia WCO allocation	WQN1-12	Various permitted activity conditions not met.	Non-complying	n/a	n/a	n/a	Non-complying	Discretionary. Under the PNRRP, the WCO is not linked to the Rules WQN6 - 12 (see Table WQN2 pg 125). This is being reviewed in light of submissions. As it stands taking water from Rakaia (other than permitted activity or groundwater with stream depletion) is not provided for in NRRP, nor TRP therefore becomes a discretionary activity by default.
CRC061755	Discharge Permit	To air - construct processes	To discharge contaminants to air from construction activities including welding, abrasive blasting, water blasting and painting associated with the construction of the Central Plains Water Enhancement Scheme.	n/a	n/a	n/a	Policies AQL6 and AQL 8	AQL41, AQL51, AQL53, AQL57	Various permitted activity conditions unlikely to be met.	Discretionary	n/a	n/a	n/a	Discretionary	Agree - but also need to consider TRP - Clean Air Act 1972 Part B(6) - and Part B(7).
CRC061759	Discharge Permit	To air - dust	To discharge contaminants, being principally dust, to air from construction activities associated with the construction of the dam and reservoir. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Policies AQL6 and AQL 8	AQL38, AQL42, AQL57	The dispersal or deposition of dust particles may cause an objectionable or offensive effect beyond the boundary of the property where the discharge originates.	Discretionary	n/a	n/a	n/a	Discretionary	Agree - but also need to consider TRP - Clean Air Act 1972 Part B(4) as part of this activity due to the extraction/crushing/storage of materials.
CRC061762	Discharge Permit	To air - dust	To discharge contaminants, being principally dust, to air from construction activities along the routes of the Inlet Canal, Headrace Canal, and Water Distribution Race Network, including pump stations as listed in Schedule A8, and at the sites listed in Schedules A.2 - A.4. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Policies AQL6 and AQL 8	AQL38, AQL42, AQL57	The dispersal or deposition of dust particles may cause an objectionable or offensive effect beyond the boundary of the property where the discharge originates	Discretionary	n/a	n/a	n/a	Discretionary	Agree - but also need to consider TRP - Clean Air Act 1972 Part B(4) as part of this activity due to the extraction/crushing/storage of materials.
CRC061763	Discharge Permit	To air - dust	To discharge contaminants, principally dust, to air from any construction or maintenance activity associated with the Rakaia water intake system. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Policies AQL6 and AQL 8	AQL38, AQL42, AQL57	The dispersal or deposition of dust particles may cause an objectionable or offensive effect beyond the boundary of the property where the discharge originates.	Discretionary	n/a	n/a	n/a	Discretionary	Agree - but also need to consider TRP - Clean Air Act 1972 Part B(4) as part of this activity due to the extraction/crushing/storage of materials.
CRC061765	Discharge Permit	To air - dust	To discharge contaminants, being principally dust, to air from any construction, operational or maintenance activity associated with the upper Waimakariri water intake system and the lower Waimakariri water intake system. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Policies AQL6 and AQL 8	AQL38, AQL42, AQL57	The dispersal or deposition of dust particles may cause an objectionable or offensive effect beyond the boundary of the property where the discharge originates.	Discretionary	n/a	n/a	n/a	Discretionary	Agree - but also need to consider TRP - Clean Air Act 1972 Part B(4) as part of this activity due to the extraction/crushing/storage of materials.
CRC061767	Water Permit	Dam / Divert	To dam water and to divert water within the Waianiwiwa River during construction of the dam and reservoir. A consent with a duration of 35 years is sought.	GA for the Diversion and Discharge of Natural Water; GA for the Damming of Rivers or Streams	The diversion and point of return may not be within 'one property', therefore the Diversion GA is not met. Proposed activity does not comply with the conditions of the Damming GA.	Non-complying	Obj WQN1 Pol WQN4, Obj WQN4 Pol WQN14, Obj WQN8 Pol 21	WQN41	Damming and/or diverting of water within or outside the bed of a surface water body, that is not a permitted or controlled activity, is a discretionary activity.	Discretionary	n/a	n/a	n/a	Non-complying	Discretionary - non compliance with a GA is defined as a Discretionary Activity
CRC061768	Water Permit	Dam / Divert	To dam and divert water during construction of the Headrace and Water Distribution Race Network, including for the purposes of constructing siphons, pipes, and erosion protection structures or works, in the surface waterbodies identified in Schedules B.2 - B.4. A consent with a duration of 35 years is sought.	GA for the Diversion and Discharge of Natural Water; GA for the Damming of Rivers or Streams	The diversion and point of return may not be within 'one property', therefore the Diversion GA is not met. Proposed activity does not comply with the conditions of the Damming GA.	Non-complying	Obj WQN1 Pol WQN4, Obj WQN4 Pol WQN14, Obj WQN8 Pol 21	WQN41	Damming and/or diverting of water within or outside the bed of a surface water body, that is not a permitted or controlled activity, is a discretionary activity.	Discretionary	n/a, with the exception of the Kowai River and other tributaries of the Waimakariri River which are affected by Rule 5.2(b)	n/a, with the exception of the Kowai River and other tributaries of the Waimakariri River, where the diversion of water from the river 'below Woodstock' is a discretionary activity under Rule 5.2(b)	n/a, with the exception of the Kowai River and other tributaries of the Waimakariri River where the status is discretionary.	Non-complying	Discretionary - non compliance with a GA is defined as a Discretionary Activity

CRC061769	Land Use	Earthwks	To excavate land to depths exceeding five metres, or deeper than the highest groundwater level at the site, and to deposit material into excavated land for the purposes of constructing the dam and reservoir. A consent with a duration of 35 years is sought.		n/a	n/a	Objectives WQL 2 & WQL 3. Policies WQL 10 & WQL 12	WQL40-41, WQL59, WQL62	Earthworks may not meet the conditions of Rule WQL40 & 41, and is therefore a non-complying activity under WQL62.	Non-complying	n/a	n/a	n/a	Non-complying	Agree
CRC061814	Land Use	Earthwks	To excavate land to a depth exceeding five metres, or deeper than the highest groundwater level at the site, and to deposit material into excavated land for the purposes of constructing an Inlet Canal, Headrace Canal and Water Distribution Race Network, along and adjacent to the routes identified in Schedules A.2 - A.4. A consent with a duration of 35 years is sought.		n/a	n/a	Objectives WQL 2 & WQL 3. Policies WQL 10 & WQL 12	WQL40-41, WQL59, WQL62	Earthworks may not meet the conditions of Rule WQL40 & 41, and is therefore a non-complying activity under WQL62.	Non-complying	n/a	n/a	n/a	Non-complying	Agree
CRC061817	Land Use	Riparian	To excavate and disturb land, deposit material, and remove and plant plants and vegetation, in the riparian margins of the Waianiwiwa River associated with construction of the dam and reservoir. A consent with a duration of 35 years is sought.	North Canterbury Catchment Board Bylaw No 1 1947, Clause 30	Planting within 24 feet of a watercourse where it is likely to obstruct the free flow of floodwaters requires the approval of the Board	Discretionary	Objective WQL 1, Policy WQL 5	WQL32 - WQL34; BRL7 & BRL8	Various permitted activity conditions not met.	Restricted discretionary under WQL34; discretionary under Rule BRL8	n/a	n/a	n/a	Discretionary	Agree - also need to consider the North Canterbury Catchment Board Bylaw No 1 1947, Clause 29
CRC061820	Land Use	Riparian	To excavate and disturb land, deposit material, and remove and plant vegetation associated with any construction, operational or maintenance activity relating to the Headrace, Inlet Canal, and Water Distribution Race Network, in the riparian margins of the surface waterbodies listed in Schedules B.1 - B.4. A consent with a duration of 35 years is sought.	North Canterbury Catchment Board Bylaw No 1 1947, Clause 30	Planting within 24 feet of a watercourse where it is likely to obstruct the free flow of floodwaters requires the approval of the Board	Discretionary	Objective WQL 1, Policy WQL 5	WQL32 - WQL34; BLR7 & BLR8	Various permitted activity conditions not met.	Restricted discretionary under WQL34; discretionary under Rule BRL8	n/a	n/a	n/a	Discretionary	Agree - also need to consider the North Canterbury Catchment Board Bylaw No 1 1947, Clause 29
CRC061822	Land Use	Riparian	To excavate and disturb land, deposit material and remove and plant plants and vegetation, in the riparian margin of the Rakaia River, associated with the construction and maintenance of the Rakaia water intake system. A consent with a duration of 35 years is sought.	North Canterbury Catchment Board Bylaw No 1 1947, Clause 30	Planting within 24 feet of a watercourse where it is likely to obstruct the free flow of floodwaters requires the approval of the Board	Discretionary	Objective WQL 1, Policy WQL 5	WQL32 - WQL34; BLR7 & BLR8	Various permitted activity conditions not met.	Restricted discretionary under WQL34; discretionary under Rule BRL8	n/a	n/a	n/a	Discretionary	Agree - also need to consider the North Canterbury Catchment Board Bylaw No 1 1947, Clause 29. May need to consider provision of the Rakaia River WCO regarding encroachment of the bed.
CRC061842	Land Use	Riparian	To excavate and disturb land, deposit material and remove and plant vegetation, in the riparian margin of the Waimakariri River, associated with any construction, operational or maintenance activities in the area of the upper Waimakariri water intake system. A consent with a duration of 35 years is sought.	North Canterbury Catchment Board Bylaw No 1 1947, Clause 30	Planting within 24 feet of a watercourse where it is likely to obstruct the free flow of floodwaters requires the approval of the Board	Discretionary	Policy WQL 5	WQL32 - WQL34; BLR7 & BLR8	Various permitted activity conditions not met.	Restricted discretionary under WQL34; discretionary under Rule BRL8	n/a	n/a	n/a	Discretionary	Agree - also need to consider the North Canterbury Catchment Board Bylaw No 1 1947, Clause 29
CRC061843	Land Use	Riparian	To excavate and disturb land, deposit material and remove and plant plants vegetation, in the riparian margin of the Waimakariri River, associated with any construction, operational or maintenance activities in the area of the lower Waimakariri water intake system. A consent with a duration of 35 years is sought.	North Canterbury Catchment Board Bylaw No 1 1947, Clause 30	Planting within 24 feet of a watercourse where it is likely to obstruct the free flow of floodwaters requires the approval of the Board	Discretionary	Policy WQL5	WQL32 - WQL34; BLR7 & BLR8	Various permitted activity conditions not met.	Restricted discretionary under WQL34; discretionary under Rule BRL8	n/a	n/a	n/a	Discretionary	WRRP rules apply
CRC061845	Land Use (bed)	River bed - erect structure	To erect, use and maintain the dam, in, on, under and over the bed of the Waianiwiwa River and to construct and maintain a tunnel portal in, on, under and over the bed of the Waianiwiwa River.	North Canterbury Catchment Board Bylaw No 1 1947: Clauses 28-31	Activity may involve widening/ deepening/ altering of watercourse, removal of material, structures/ activities in watercourse	Discretionary		BLR1 - BLR5, BLR7 & BLR8	Various permitted activity conditions not met.	Discretionary	n/a	n/a	n/a	Discretionary	Agree
CRC061846	Land Use (bed)	River bed - erect structure	To place, operate, maintain and repair Inlet Canal, Headrace Canal, and Water Distribution Race Network Structures, including siphons, pipes, and erosion protection structures, and associated bed excavation and disturbance, in, on, under, or over the beds of the surface waterbodies listed in Schedules B.1 - B.4. A consent with a duration of 35 years is sought.	North Canterbury Catchment Board Bylaw No 1 1947: Clauses 28-31	Activity may involve widening/ deepening/ altering of watercourse, removal of material, structures/ activities in watercourse	Discretionary		BLR1 - BLR5, BLR7 & BLR8	Various permitted activity conditions not met.	Discretionary	n/a, except in the Waimakariri River Catchment where Rule 5.2 applies	n/a, except in the Waimakariri River Catchment where the discharge of water into the Waimakariri River or its tributaries or any wetland is a discretionary activity.	n/a, except in the Waimakariri River Catchment where the activity status is Discretionary	Discretionary	Agree

CRC061847	Land Use (bed)	River bed - erect structure	To erect, and maintain discharge structures and erosion protection structures and carry out associated bed excavation and disturbance, in, on, under, and over the bed of the surface waterbodies listed in Schedules C.1 - C.4 above. The structures and works will be associated with the construction and maintenance of the Inlet Canal, Headrace Canal, and Water Distribution Race Network. A consent with a duration of 35 years is sought.	North Canterbury Catchment Board Bylaw No 1 1947: Clauses 28-31	Activity may involve widening/ deepening/ altering of watercourse, removal of material, structures/ activities in watercourse	Discretionary		BLR1 - BLR5, BLR7 & BLR8	Various permitted activity conditions not met.	Discretionary	n/a, except in the Waimakariri River Catchment where Rule 5.2 applies	n/a, except in the Waimakariri River Catchment where the discharge of water into the Waimakariri River or its tributaries or any wetland is a discretionary activity.	n/a, except in the Waimakariri River Catchment where the activity status is Discretionary	Discretionary	Agree
CRC061863	Land Use (bed)	River bed - erect structure	To place structures in the bed of the Rakaia River and to excavate, disturb and deposit bed material, remove plants, and plant plants vegetation to facilitate the construction, operation and maintenance of the Rakaia water intake system. A consent with a duration of 35 years is sought.	North Canterbury Catchment Board Bylaw No 1 1947: Clauses 28-31	Activity may involve widening/ deepening/ altering of watercourse, removal of material, activities near riverbank	Discretionary		BRL1 - BRL5, BRL7 & BRL8	Various permitted activity conditions not met.	Discretionary	n/a	n/a	n/a	Discretionary	Agree
CRC061866	Land Use (bed)	River bed - erect structure	To place structures in the bed of the Waimakariri River and to excavate, disturb and deposit bed material, remove and plants, and plant plants vegetation to facilitate the construction, operation and maintenance of the upper Waimakariri water intake system. A consent with a duration of 35 years is sought.	n/a - refer WRRP	n/a - refer WRRP	n/a - refer WRRP		n/a - refer WRRP	n/a - refer WRRP	n/a - refer WRRP	Rule 7.4	The activities described in the Activity Description, where not otherwise provided for as a permitted activity, are a discretionary activity.	Discretionary	Discretionary	Agree
CRC061867	Land Use (bed)	River bed - disturb	Excavate and disturb the bed of the Waimakariri River, including deposition of material, planting of plants, disturbance and removal of plants and habitat, and the reclamation or drainage of river bed, for the purposes of constructing intake, bywash, fish pass and diversion channels	n/a - refer WRRP	n/a - refer WRRP	n/a - refer WRRP		n/a - refer WRRP	n/a - refer WRRP	n/a - refer WRRP	Rule 7.4	The activities described in the Activity Description, where not otherwise provided for as a permitted activity, are a discretionary activity.	Discretionary	Discretionary	Agree
CRC061870	Discharge Permit	To water	To discharge contaminants, being principally sediment, and water to the Waianiwiwa River, during construction of the dam, reservoir, and tunnel portal. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1	WQL56, WQL60	There are no rules permitting the activity.	Discretionary if conditions on Rule WQL56 are met	n/a	n/a	n/a	Discretionary or non-complying	Non-complying - evidence required to show Conditions in Rule WQN56 can be met
CRC061871	Discharge Permit	To water - sediment	To discharge contaminants, being principally sediment, and water associated with any construction activity relating to the construction and maintenance of the Inlet Canal, Headrace Canal and Water Distribution Race Network, to water in surface waterbodies listed in Schedules B.1 - B.4. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1	WQL56, WQL60	There are no rules permitting the activity.	Discretionary if conditions on Rule WQL56 are met	n/a, except in the Waimakariri River Catchment where Rule 5.2 applies	n/a, except in the Waimakariri River Catchment where the discharge of water into the Waimakariri River or its tributaries or any wetland is a discretionary activity.	n/a, except in the Waimakariri River Catchment where the activity status is Discretionary	Discretionary or non-complying	Non-complying - evidence required to show Conditions in Rule WQL56 can be met
CRC061873	Discharge Permit	To water - sediment	To discharge water and contaminants, being principally sediment, to the Rakaia River from the construction, operation and maintenance of the Rakaia water intake system. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1	WQL56, WQL60	There are no rules permitting the activity	Discretionary if conditions on Rule WQL56 are met	n/a	n/a	n/a	Discretionary or non-complying	Non-complying - evidence is required to show Conditions in Rule WQN56 can be met. Also need to consider the Rakaia River Water Conservation Order S9(2).
CRC061875	Discharge Permit	To water - sediment	To discharge water and contaminants, being principally sediment, to the Waimakariri River from construction, operation and maintenance activities on the upper Waimakariri water intake system. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	n/a - refer WRRP	n/a - refer WRRP	n/a - refer WRRP	n/a - refer WRRP	Rule 6.1	The discharge of contaminants into the Waimakariri River, or onto or into land within 20 metres of the river, is a discretionary activity (provided Class WAIM Water met)	Discretionary (if Class WAIM met), otherwise non-complying under Rule 6.2	Discretionary	Non-complying - evidence is required to show compliance with Rule 6.1

	Type	Sub-Type		Relevant Rule(s)	Assessment Summary	Activity Status	Relevant Objective	Relevant Rule(s)	Assessment Summary	Activity Status	Relevant Rule(s)	Assessment Summary	Activity Status		
CRC061920	Discharge Permit	To water - sediment	To discharge water and contaminants, being principally sediment, to the Waimakariri River from construction, operation and maintenance activities on the lower Waimakariri water intake system. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	n/a - refer WRRP	n/a - refer WRRP	n/a - refer WRRP	n/a - refer WRRP	Rule 6.1	The discharge of contaminants into the Waimakariri River, or onto or into land within 20 metres of the river, is a discretionary activity (provided Class WAIM Water met)	Discretionary (if Class WAIM met), otherwise non-complying under Rule 6.2	Discretionary	Non-complying - evidence is required to show compliance with Rule 6.1
CRC061922	Discharge Permit	To water - stormwater	To discharge stormwater, which may contain contaminants, onto or into land, in circumstances where it may enter water, and to the surface water bodies identified in Schedules B1-B4, from all construction areas associated the Central Plains Water Enhancement Scheme. A consent with a duration of 35 years is sought.	General Authorisation for the Discharge of Stormwater	The discharge of stormwater to ground may not exclude all other stormwater, and therefore does not meet the General Authorisation	Non-complying	Objective WQL 1, Policies WQL1, WQL3; Objective WQL 2, Policies WQL 6, WQL 7	WQL5, WQL 6, WQL 56, WQL57, WQL62	Various permitted activity conditions under Rule WQL5 may not be met.	Discretionary	n/a	n/a	n/a	Discretionary or non-complying	Discretionary - non compliance with a GA is defined as a Discretionary Activity.
CRC061924	Discharge Permit	To water - stormwater	To discharge stormwater, which may contain contaminants, from all construction areas into the Waimakariri River and the Rakaia River and the waterbodies listed in Schedules B.1 - B.4. A consent with a duration of 35 years is sought.	General Authorisation for the Discharge of Stormwater	The discharge of stormwater to ground may not exclude all other stormwater, and therefore does not meet the General Authorisation	Non-complying	Objective WQL 1, Policies WQL1, WQL3; Objective WQL 2, Policies WQL 6, WQL 7 Rakaia River WCO	WQL6, WQL56, WQL60	Various permitted activity conditions under Rule WQL6 and WQL60 may not be met.	Non-complying	n/a	n/a	n/a	Non-complying	Non-complying - also need to consider WRRP Rule 6.2 for the discharge into the Waimakariri River
CRC061925	Water Permit	Take - dewatering	To take water for dewatering purposes during construction of the Inlet Canal, Headrace Canal, and Water Distribution Race Network, including for the purposes of constructing siphons, pipes, and erosion protection structures/works, in the surface waterbodies identified in Schedules B.1 - B.4. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 2, Policy WQL 10 Obj WQN3, Pol WQN13	WQN7-WQN10; WQN17, WQN18; WQL 38	Take from the watercourse and/or groundwater may not comply with various conditions in the rules. [worst case scenario approach]	Non-complying	except for Waimakariri River and tributaries (including Kowai River) where Rule 5.1 applies	except for Waimakariri River catchment where taking of any surface waters or hydraulically connected groundwater, in the Waimakariri area below Woodstock, is a restricted discretionary activity	, except for Waimakariri River catchment where status is restricted discretionary	Non-complying	Agree
CRC061927	Water Permit	Take - dewatering	To take surface water and groundwater for dewatering purposes during construction of the dam and reservoir. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 2, Policy WQL 10	WQN7-WQN10; WQN17, WQN18; WQL 38	Take from the watercourse and/or groundwater may not comply with various conditions in the rules. [worst case scenario approach]	Non-complying	n/a	n/a	n/a	Non-complying	Agree
CRC061928	Discharge Permit	To water - dewatering	To discharge water taken for dewatering purposes during construction or maintenance works to land in circumstances where it may enter water, and to water in the surface waterbodies identified in Schedules B.1 - B.4. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1, Rakaia River WCO	WQL56, WQL60	There are no rules permitting the activity.	Discretionary if conditions on Rule WQL56 are met	, except in the Waimakariri River Catchment where Rule 5.2 applies	, except in the Waimakariri River Catchment where the discharge of water into the Waimakariri River or its tributaries or any wetland is a discretionary activity.	, except in the Waimakariri River Catchment where the activity status is Discretionary	Discretionary or non-complying	Discretionary - non compliance with a GA is defined as a Discretionary Activity
CRC061930	Water Permit	Take and Use	To take water from the Waianiwanawa River, for use during the construction of the dam, reservoir and tunnel portal, including for concrete batching plant purposes, the control of moisture in compacted soil, and for the control of dust. A consent with a duration of 35 years is sought.	n/a	n/a	n/a		WQN7-WQN10; WQN17, WQN18	Take from the watercourse and/or groundwater may not comply with various conditions in the rules. [worst case scenario approach]	Non-complying	n/a	n/a	n/a	Non-complying	Agree - however if taking groundwater from the Rakaia-Selwyn GW Zone, it would be a prohibited activity under Rule WQN24
CRC061932	Discharge Permit	To water - sediment	To discharge water and contaminants, being principally sediment, from construction and maintenance activities associated with the tunnel to land and to water during construction in the area identified in Schedule A.2. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1, Rakaia River WCO	WQL56, WQL60	There are no rules permitting the activity.	Discretionary if conditions on Rule WQL56 are met	n/a	n/a	n/a	Discretionary or non-complying	Non-complying - evidence is required to show compliance with Rule WQL56

	Type	Sub-Type		Relevant Rule(s)	Assessment Summary	Activity Status	Relevant Objective	Relevant Rule(s)	Assessment Summary	Activity Status	Relevant Rule(s)	Assessment Summary	Activity Status		
CRC061933	Discharge Permit	To air - construct processes	To discharge contaminants to air from pump stations and emergency generators at the sites listed in Schedule A.8 above. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Policies AQL2 and AQL 8	AQL26	Conditions of rule likely to be met.	Controlled	n/a	n/a	n/a		Agree - however further evidence is required to demonstrate conditions of AQL25 will be met. Otherwise a Discretionary activity under AQL27
CRC061939	Water Permit	Dam	To dam water in the Waianiwanawa River for the purpose of creating the reservoir. A consent with a duration of 35 years is sought.	GA for the Damming of Rivers or Streams	Proposed activity does not comply with the conditions of the GA.	Non-complying		WQN41	Damming of water within or outside the bed of a surface water body, that is not a permitted or controlled activity, is a discretionary activity.	Discretionary	n/a	n/a	n/a	Discretionary	Discretionary - non compliance with a GA is defined as a Discretionary Activity
CRC061940	Water Permit	Divert	To divert water within the Rakaia River towards the Rakaia water intake system to enable the taking of water from the Rakaia River for irrigation and ancillary purposes, and for sediment sluicing and fish pass purposes within the Rakaia water intake system and then to divert water through the headrace canal and distribution network as described in schedules A3 and A4, which includes water being diverted within the headrace canal and distribution network both above and below ground level. A consent with a duration of 35 years is sought.	GA for the Diversion and Discharge of Natural Water	The diversion and point of return may not be within 'one property', therefore the Diversion GA is not met.	Non-complying	Obj WQN1 Pol WQN4	WQN34, WQN37, WQN41	Diverting of water within or outside the bed of a surface water body, that is not a permitted or controlled activity, is a discretionary activity.	Discretionary	n/a	n/a	n/a	Non-complying	Discretionary - non compliance with a GA is defined as a Discretionary Activity This applies to the conveyance network as well which may affect rivers, flow channels etc along route.
CRC061941	Water Permit	Divert	To divert water within the Waimakariri River towards the upper Waimakariri water intake system to enable the taking of water for irrigation and ancillary purposes, and for sediment sluicing and fish passes within the upper Waimakariri water intake system and then to divert water through the headrace canal and distribution network as described in schedules A2 to A4, which includes water being diverted within the headrace canal and distribution network both above and below ground level. A consent with a duration of 35 years is sought.	GA for the Diversion and Discharge of Natural Water	The diversion and point of return may not be within 'one property', therefore the GA is not met.	- WRRP requires resource consent as a discretionary activity.		WQN37, WQN 41 & refer WRRP	- refer WRRP	- refer WRRP	Rule 5.2(b)	The diversion of water from the river 'below Woodstock' is a discretionary activity.	Discretionary	Discretionary	Agree
CRC061943	Water Permit	Divert	To divert water in the Waimakariri River towards the lower Waimakariri water intake system to enable the taking of water for irrigation and ancillary purposes, and for sediment sluicing and fish passes within the lower Waimakariri water intake system and then to divert water through the headrace canal and distribution network as described in schedules A3 and A4, which includes water being diverted within the headrace canal and distribution network both above and below ground level. A consent with a duration of 35 years is sought.	GA for the Diversion and Discharge of Natural Water	The diversion and point of return may not be within 'one property', therefore the GA is not met.	- WRRP requires resource consent as a discretionary activity.		WQN37, WQN 41 & refer WRRP	- refer WRRP	- refer WRRP	Rule 5.2(b)	The diversion of water from the river 'below Woodstock' is a discretionary activity.	Discretionary	Discretionary	Agree
CRC061945	Discharge Permit	To water - stormwater	To discharge stormwater, which may contain contaminants, onto or into land, in circumstances where it may enter water, from all structures including but not limited to: Inlet Canal, Headrace Canal, Water Distribution Race Network, dam and reservoir, roads, hardstand areas and utility buildings associated with the Central Plains Water Enhancement Scheme. A consent with a duration of 35 years is sought.	General Authorisation for the Discharge of Stormwater	The discharge of stormwater to ground may not exclude all other stormwater, and therefore does not meet the General Authorisation	Non-complying	Objective WQL 1, Policies WQL1, WQL3; Objective WQL 2, Policies WQL 6, WQL 7	WQL5, WQL 6m, WQL 56, WQL57, WQL62	Various permitted activity conditions under Rule WQL5 may not be met.	Discretionary	n/a	n/a	n/a	Discretionary or non-complying	Non-complying - evidence is required to show compliance with Rule WQL57
CRC061948	Land Use	Haz Sub	To use and store hazardous substances at facilities associated with the construction of the dam and reservoir.	n/a	n/a	n/a	Objective WQL 1, Objective WQL 2, Policy WQL 8	WQL42 - WQL44; WQL62	Use and storage may not comply with conditions in Rules WQL42-44, and is therefore a discretionary activity under Rule WQL62.	Non-complying	n/a	n/a	n/a	Non-complying	Agree - also need to give consideration to Bylaw No 2 of the TRP
CRC061949	Discharge Permit	To water - seepage	To discharge water and contaminants to land in circumstances where it may enter water, in the form of seepage from beneath the Reservoir, and along the length of the Inlet Canal, Headrace Canal, Water Distribution Race Network, and wetlands, as listed in Schedules A1-A4 and C3-C4. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1	WQL58; WQL60	Discharge of a contaminant to groundwater, not otherwise permitted under Rules WQL4 or 50 or prohibited under Rules WQL 15, 28 and 46, is a discretionary activity.	Discretionary	n/a	n/a	n/a	Discretionary	Agree

CRC061950	Discharge Permit	To water - surplus	To discharge surplus water and contaminants, from the headrace Headrace and Water Distribution Race Network to land in circumstances where it may enter groundwater, and to water at the locations listed in Schedules C.1 - C.4 above. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objectives WQL 1, WQL 2, WQL 3. Policies WQL 1, WQL 6, WQL9, WQL 12	WQL56, WQL58, WQL60, WQL62	There are no rules permitting the activity.	Discretionary if conditions on Rule WQL56 are met	n/a, except in the Waimakariri River Catchment where Rule 5.2 applies	n/a, except in the Waimakariri River Catchment where the discharge of water into the Waimakariri River or its tributaries or any wetland is a discretionary activity.	n/a, except in the Waimakariri River Catchment where the activity status is Discretionary	Discretionary or non-complying	Non-complying - evidence is required to show compliance with Rule WQL56
CRC061951	Land Use	Haz Sub	To use and store hazardous substances required for emergency generators and pump stations along the Headrace Canal at the sites listed in Schedule A.8 above. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Objective WQL 2, Policy WQL 8	WQL42 - WQL44; WQL62	Use and storage may not comply with conditions in Rules WQL42-44, and is therefore a discretionary activity under Rule WQL62.	Non-complying	n/a	n/a	n/a	Non-complying	Agree
CRC061953	Land Use	Riparian	To excavate and disturb land, deposit material, and remove and plant vegetation, in the riparian margins of the Waianiwiwa River and reservoir, associated with the use and maintenance of the dam, reservoir, and related infrastructure. A consent with a duration of 35 years is sought.	North Canterbury Catchment Board Bylaw No 1 1947, Clause 30	Planting within 24 feet of a watercourse where it is likely to obstruct the free flow of floodwaters requires the approval of the Board	Discretionary	Objective WQL 1, Policy WQL 5	WQL32 - WQL34; BRL7 & BRL8	Various permitted activity conditions not met.	Restricted discretionary under WQL34; discretionary under Rule BRL8	n/a	n/a	n/a	Discretionary	Agree - also need to consider Clause 29 TRP
CRC061972	Water Permit	Take and Use	To take and use water from the Waimakariri River at a maximum rate of 40 cubic metres per second via the upper Waimakariri water intake system and the lower Waimakariri water intake system, for the purposes of irrigation of up to 60,000 hectares of land within the Scheme Area, for water storage, and for ancillary purposes associated with the operation of the Central Plains Water Enhancement Scheme. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 2, Policy WQL 9	WQN25, WQN26	The use of water for irrigation is not permitted under Rule WQN25.	Discretionary	Rule 5.1	Taking of surface water is a restricted discretionary activity.	Restricted discretionary	Discretionary	Agree
CRC061973	Water Permit	Use	To take and use water from the Rakaia River at a maximum rate of 40 cubic metres per second via the Rakaia water intake system, for the purposes of irrigating up to 60,000 hectares of land within the Scheme Area, for water storage, and for ancillary purposes associated with the operation of the Central Plains Water Enhancement Scheme. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 2, Policy WQL 9 Obj WQN5, Pol WQN17	WQN25, WQN26	The use of water for irrigation is not permitted under Rule WQN25.	Discretionary	n/a	n/a	n/a	Discretionary	Agree - also need to consider the Rakaia River NWCO. The NWCO does not address use of the water.
CRC061974	Discharge Permit	To water - from dam	To discharge water and contaminants from the headrace canal to the Waianiwiwa River at or about map reference NZMS 260 L35: 282-540NZMS 260	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1	WQL56, WQL60	There are no rules permitting the activity	Discretionary if conditions on Rule WQL56 are met	n/a	n/a	n/a	Discretionary or non-complying	Non-complying - evidence is required to show compliance with Rule WQL56, Objective WQL 1.1, WQL 1.2 and Policy WQL 1
CRC061975	Discharge Permit	To water - from dam	To discharge water and contaminants from the reservoir to water in the headrace canal. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1	WQL56, WQL60	There are no rules permitting the activity.	Discretionary if conditions on Rule WQL56 are met	n/a	n/a	n/a	Discretionary or non-complying	Non-complying - evidence is required to show compliance with Rule WQL56, Objective WQL 1.1, WQL 1.2 and Policy WQL 1
CRC061976	Discharge Permit	To water - sediment	To discharge water and contaminants from the tunnel portal to land and water in the reservoir. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1	WQL56, WQL60	There are no rules permitting the activity	Discretionary if conditions on Rule WQL56 are met	n/a	n/a	n/a	Discretionary or non-complying	Non-complying - evidence is required to show compliance with Rule WQL56
CRC061977	Discharge Permit	To water - sediment	To discharge contaminants, being principally sediment, and water to water associated with any operational or maintenance activity relating to the Inlet Canal, Headrace Canal and Water Distribution Race Network, in surface waterbodies listed in Schedules B.1 - B.4. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1, Rakaia River WCO	WQL56, WQL60	There are no rules permitting the activity	Discretionary if conditions on Rule WQL56 are met	n/a, except in the Waimakariri River Catchment where Rule 5.2 applies	n/a, except in the Waimakariri River Catchment where the discharge of water into the Waimakariri River or its tributaries or any wetland is a discretionary activity.	n/a, except in the Waimakariri River Catchment where the activity status is Discretionary	Discretionary or non-complying	Non-complying - evidence is required to show compliance with Rule WQL56 and Rakaia River WCO . In the Waimakariri Catchment it is Discretionary

CRC061978	Discharge Permit	To water - surplus	To discharge surplus water and contaminants from the Headrace Canal and Water Distribution Race Network to land adjacent to, in circumstances where it may enter water and to water in the surface waterbodies identified in Schedules B.1 - B.4. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1, Rakaia River WCO	WQL56, WQL58, WQL60, WQL62	There are no rules permitting the activity	Discretionary if conditions on Rule WQL56 are met	n/a, except in the Waimakariri River Catchment where Rule 5.2 applies	n/a, except in the Waimakariri River Catchment where the discharge of water into the Waimakariri River or its tributaries or any wetland is a discretionary activity.	n/a, except in the Waimakariri River Catchment where the activity status is Discretionary	Discretionary or non-complying	Non-complying - evidence is required to show compliance with Rule WQL56 and Rakaia River WCO. In the Waimakariri Catchment it is Discretionary
CRC061980	Discharge Permit	To water - surplus	To discharge water that has been diverted, but not taken, back into the Rakaia River, via sediment sluicing, fish pass and bypass channels that form part of the Rakaia water intake system. A consent with a duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1, Rakaia River WCO	WQL56, WQL58, WQL60, WQL62	There are no rules permitting the activity	Discretionary if conditions on Rule WQL56 are met	n/a	n/a	n/a	Discretionary or non-complying	Non-complying - evidence is required to show compliance with Rule WQL56
CRC061981	Discharge Permit	To water - surplus	To discharge water that has been diverted but not taken, back into the Waimakariri River, via sediment sluicing, fish pass and diversion channels that form part of the upper Waimakariri water intake system, A consent with a duration of 35 years is sought.	n/a	n/a	n/a		n/a - refer WRRP	n/a - refer WRRP	n/a - refer WRRP	Rule 5.2	The discharge of water into the Waimakariri River or its tributaries or any wetland is a discretionary activity.	Discretionary	Discretionary	Agree
CRC061983	Discharge Permit	To water - stormwater	To discharge stormwater, which may contain contaminants, from all structures associated with the Central Plains Water Enhancement Scheme into a river, lake or artificial watercourse, including the Waimakariri River and Rakaia River and the waterbodies listed in Schedules B.1 - B.4 and C.1 - C.4. A consent with a duration of 35 years is sought.	General Authorisation for the Discharge of Stormwater	The discharge of stormwater to ground may not exclude all other stormwater, and therefore does not meet the General Authorisation	Non-complying	Objective WQL 1, Policy WQL 1, Policy yWQL3Rakaia River WCO	WQL6, WQL56, WQL60	Various permitted activity conditions under Rule WQL6 and WQL60 may not be met.	Non-complying	n/a	n/a	n/a	Non-complying	Agree
CRC063699	Water Permit	Take	to take water from the Waimakariri River for water enhancement schemes in the Central Plains area	n/a	n/a	n/a		n/a	n/a	n/a	Rule 5.1	The taking of surface water is a restricted discretionary activity	Restricted Discretionary	Restricted Discretionary	Agree
CRC071916	Discharge Permit	To water	to discharge water and contaminants to land and water at a maximum rate of 0.3 m ³ /s to a 0.1 hectare constructed wetland, except that during emergencies the discharge could reach a maximum rate of 2.5 m ³ /s and may be discharged directly to the Hawkins River, at about map reference NZMS 260 L35: 281-574, near Bluff Road, adjacent to the Hawkins River. A duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1, Objective WQL 3, Policy WQL 12	WQL1, WQL56	Does not comply with a number of conditions under WQN1	Discretionary	n/a	n/a	n/a	Discretionary	Agree
CRC071917	Discharge Permit	To water	to discharge water and contaminants to land and water at a maximum rate of 0.4 cubic metres per second (m ³ /s) to a 0.1 – 0.2 hectare constructed wetland, except that during emergencies the discharge could reach a maximum rate of 3 m ³ /s and may be discharged directly into the Selwyn River. The discharge shall occur at or about map reference NZMS 260 L35: 289-421, near Hawkins Road, adjacent to the Selwyn River. A duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 1, Policy WQL 1, Objective WQL 3, Policy WQL 12	WQL1, WQL56	Does not comply with a number of conditions under WQN1	Discretionary	n/a	n/a	n/a	Discretionary	Agree
CRC072760	Land use	Excavate Bed of River	a land use consent to excavate a tunnel under the bed of the Hawkins River and tributaries, at or about map reference NZMS 260 L35: 278-578, near Bluff Road. A duration of 35 years is sought.	Bylaw No 2 Underground Water	non-compliance with rule 9	Discretionary		BLR3, BLR8	Does not comply with conditions 2 or 8 of Rule BLR3 - therefore discretionary under BLR8	Discretionary	n/a	n/a	n/a	Discretionary	Agree
CRC072761	Land Use	Excavate Aquifer	a land use consent to excavate a tunnel over unconfined or semi-confined aquifers along the route between the Waimakariri portal and Waianiwiwa portal. A duration of 35 years is sought.	n/a	n/a	n/a	Objective WQL 2, Policy WQL10	WQL40	Conditions complied with if excavation is OVER an aquifer (not under or in)	Restricted Discretionary	n/a	n/a	n/a	Restricted Discretionary	Non-Complying. Excavation will be greater than 5m deep.
CRC072762	Water Permit	Dewatering	a water permit to take water for dewatering the tunnel during construction along the route between the Waimakariri portal and Waianiwiwa portal. A duration of 10 years is sought.	n/a	n/a	n/a		WQN17, WQN18	Does not comply with condition 1 of WQN17, therefore discretionary under WQN18	Discretionary	n/a	n/a	n/a	Discretionary	Agree
CRC072765	Land Use	Haz Sub	a land use consent to store hazardous substances (principally diesel) to power machinery and plant at the Waimakariri portal and Waianiwiwa portal. A duration of 10 years is sought.	Bylaw No.2	Storage of diesel in volumes exceeding 2,500 L is a discretionary activity	Restricted Discretionary	Objective WQL 2, Policy WQL8	WQL43	Diesel may be stored in above ground container at the site under certain conditions	Permitted	n/a	n/a	n/a	Restricted Discretionary	Agree
CRC072766	Discharge Permit	To Air - diesel	a discharge permit to discharge contaminants to air from the operation of a diesel generator during construction at the Waimakariri portal and Waianiwiwa portal. A duration of 10 years is sought.	n/a	n/a	n/a	Policies AQL2 and AQL 8	AQL26, AQL27	Does not comply with AQL26, therefore Discretionary under AQL27	Discretionary	n/a	n/a	n/a	Discretionary	Agree
