

Report 1, Appendix 4: Notification details

This Report contains the notification wording for all consents proceeding to the upper Waitaki combined hearing. Consents are grouped by applicant listed in alphabetical order. For each applicant, the date(s) that an application was publicly notified are contained below the notification wording. Some applications have been notified more than once. Where this has occurred, the notification wording is from the most recent public notification notice.

ANDERSON, K J & D K & S R

Applicant: Messrs K J and D K and Mrs S R Anderson
Address: C/- R J Hall Civil & Environmental Consulting Ltd,
78 Beverley Road, TIMARU

CRC012017 - To divert, take and use water from Corbies Creek at a maximum rate of 110 litres per second with a volume not exceeding 9,504 cubic metres per day and a volume not exceeding 2,987,848 cubic metres per year for the spray irrigation of pasture and for stockwater supply to Bog Roy Station, Otematata Station and Rostreiver Station at or about map reference NZMS 260 H40:786-173 approximately 7.7 km south of Lake Benmore. A 35 year duration is sought.

CRC012019 - To divert water from the Otamatapaio River at its confluence with Corbies Creek, at a maximum rate of 110 litres per second for stockwater supply and spray and border dyke irrigation of pasture, at Bog Roy Station at or about map reference NZMS 260 H40:786-213, approximately 1.7km west of State Highway 83 and 3.7km south of Lake Benmore.

-To take and use water at a maximum rate of 110 litres per second with a volume not exceeding 60,480 cubic metres per week, with an annual volume not exceeding 1,831,680 for spray and border dyke irrigation of pasture and a volume not exceeding 6,048 cubic metres per week, with an annual volume not exceeding 314,496 cubic metres for stockwater supply, from a stock water race between map reference NZMS 260 H40:786-213 and H39:801-244. A 35 year duration is sought.

CRC012032 - To discharge up to 66,528 cubic metres of unused irrigation and stockwater per week at a maximum rate of 110 litres per second into Corbies Creek at or about map reference NZMS 260 H40:799-178 approximately 7km south of Lake Benmore. A 35 year duration is sought

CRC012033 - To discharge up to 66528 cubic metres of unused irrigation and stockwater per week at a maximum rate of 110 litres per second into Lake Benmore at or about map reference NZMS 260 H39:801-224 approximately 1.5km east of Sailors Cutting Camping Ground adjacent to State Highway 83 Lake Benmore. A 35 year duration is sought.

Applications CRC012033 and CRC012032 were publicly notified on the following dates:

- 5 July 2003 (with submissions closing 1 August 2003).
- 4 August 2007 (with submissions closing 28 September 2007).
-

Applications CRC012017 and CRC012019 were publicly notified on the following dates:

- 5 July 2003 (with submissions closing 1 August 2003).
- 6 December 2003 (as part of Minister for the Environments call-in)
- 4 August 2007 (with submissions closing 28 September 2007).

AVIEMORE LIMITED

Applicant: Aviemore Limited
Address: C/- GHD Limited, P O Box 13468, Christchurch 8013

CRC041031 - To take and use water from Lake Waitaki at a maximum rate not exceeding 55 litres per second, and a volume not exceeding 4,752 cubic metres per day, and a volume not exceeding 714,000 cubic metres per year, at or about map reference NZMS 260: I40:051-107. Water will be used for spray irrigation of up to 119 hectares of viticulture, pasture and winter feed crops at State highway 83, Awhokomo Road, Waitaki Dam. A 35 year duration is sought.

CRC083692 – To take and use water from Station Stream, at or about map reference NZMS 260 140:901-168, or from Lake Aviemore, between at or about map references NZMS 260 H40:8931-1861 and H40:8990-1801, at a maximum rate of 19 litres per second, with a volume not exceeding 210,000 cubic metres between 1 July and the following 30 June, for the spray irrigation of 35 hectares at Aviemore Station, State Highway 83, Lake Aviemore. This application is to replace expired consent WTK750901. The applicant has requested a duration of 35 years.

Application CRC041031 was publicly notified on the following dates:

- 6 December 2003 as part of the MfE call-in of all Waitaki consents
- 4 August 2007 (with submissions closing 28 September 2007)

Application CRC083692 was publicly notified on 8 November 2008 with submissions closing on 5 December 2008.

BELFIELD LAND COMPANY LIMITED

Applicant: Bellfield Land Company Limited
Address: Irrigation Resource Solutions Ltd, PO Box 80, Lake Tekapo

CRC011987 - To divert, take and use water from Quailburn Stream at a maximum rate of 140 litres per second, and a volume not exceeding 2,835,520 cubic metres per year, at or about map references NZMS 260 H39:645-364 and H39:646-364. Water will be used for the spray irrigation of 208 hectares for grazing of sheep and beef and stock water purposes at directly west of the Hen Burn and Quailburn Road intersection. A 35 year duration is sought.

CRC012733 - To discharge up to 140 litres per second of excess bywash water and stock water into tributaries of Quailburn Stream at or about map references NZMS 260 H39:648-362 and H39:649-364 and H39:650-347 (Cooke's Pond). A 35 year duration is sought.

CRC071649 - To take and use surface water from Hen Burn Stream at a maximum rate not exceeding 30 litres per second, and a volume not exceeding 18,144 cubic metres per week and 312,000 cubic metres per year, between map reference NZMS 260: H39:615-337 and H39:615-336 or H39:619-339 and H39:621-338 for the spray irrigation of approximately 52 hectares for grazing sheep and beef at 318 Henburn Road, Omarama. A duration until 2025 is sought.

CRC071650 - To disturb the riverbed and construct a minor structure in Hen Burn Stream to facilitate the abstraction, and associated maintenance work to sustain the abstraction for consent CRC071649 at 318 Hen Burn Road, Omarama. A duration until 2025 is sought.

Applications CRC012733, CRC071649, CRC071650 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC011987 was publicly notified on the following dates:

- 6 December 2003 as part of the MfE call-in of all Waitaki consents.
- 4 August 2007 (with submissions closing 28 September 2007).

BIRCHWOOD RUN LIMITED

Applicant: Birchwood Run Limited
Address: R J Hall Civil & Environmental Consulting Limited (Timaru),
PO Box 503, Timaru,

CRC012290 - To disturb the bed and banks at the confluence of Wairepo Stream and Spring Creek for the purpose of maintaining a gravel bund at or about map reference NZMS 260

H39:7427-4823 at Twizel-Omarama Road (State Highway 8) approximately 8.7 km South of Twizel. A 35 year duration is sought.

CRC012291 - To divert surface water from Spring Creek to an irrigation race at a maximum rate not exceeding 57 litres per second, and a volume not exceeding 35,000 cubic metres per week and 336,000 cubic metres per year, at or about map reference NZMS 260: H39: 753-483, and

- to take and use surface water from an irrigation race at a maximum rate not exceeding 57 litres per second, and a volume not exceeding 35,000 cubic metres per week, and a volume not exceeding 336,000 cubic metres per year, for the border dyke irrigation of 56 hectares of crops and pasture and stockwater, from between map references NZMS 260: H39:753-483 and H38:761-507 for stock water and border dyke irrigation of up to 56 hectares of crops and pasture at Twizel-Omarama Road (State Highway 8) approximately 8.7km south of Twizel. A 35 year duration is sought.

CRC082211 - To divert surface water from Spring Creek (a tributary of Wairepo Creek), at or about map reference NZMS 260 H39:7534- 4837, at a maximum rate of 15 litres per second, with a volume not exceeding 473,040 cubic metres between 1 July and the following 30 June. Water will be used for stock water and domestic purposes, at Twizel Omarama Road, Omarama. This application is to replace consent for an existing activity. The applicant has requested a duration of 35 years.

CRC082212 – To discharge surplus water from a diversion channel into Wairepo Creek, at or about map reference NZMS 260 H39:7607-5079, at a maximum rate of 15 litres per second, at Twizel Omarama Road, Omarama. This application is to replace consent for an existing activity. The applicant has requested a duration of 35 years.

Application CRC012290 was publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC012291 was publicly notified on the following dates:

- 6 December 2003 as part of the MfE call-in of all Waitaki consents.
- 4 August 2007 (with submissions closing 28 September 2007).

Applications CRC082211 and CRC082212 were publicly notified on 8 November 2008 with submissions closing on 5 December 2008.

CLASSIC PROPERTIES LIMITED

Applicant: Classic Properties Limited

Address: Irricon Consultants, PO Box 584, Ashburton

CRC063106 - To take and use surface water from Tekapo Canal, at a maximum rate not exceeding 300 litres per second and a volume not exceeding 103,680 cubic metres in any period of seven consecutive days and 2,650,000 cubic metres between 1st July and 30th June, at or about map reference 9522-7737 for spray irrigation of up to 416 hectares of crops and pasture for grazing stock, excluding milking dairy cows at Maryburn Station, Tekapo - Pukaki Road. A duration until 2025 is sought.

CRC070406 - To take and use surface water from Tekapo Canal at a maximum rate not exceeding 211 litres per second, and a volume not exceeding 72,922 cubic metres in any period of four consecutive days, and 3,079,750 cubic metres between 1st July and the following 30th June, at or about map reference NZMS 260: I38: 9522-7737 for spray irrigation of up to 485 hectares of crops and pasture for grazing stock, excluding milking dairy cows at Maryburn Station, Tekapo Twizel Road, Fairley. A duration until 2025 is sought.

Applications CRC063106 and CRC070406 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

DUNSTAN PEAKS LIMITED

Applicant: Dunstan Peaks Limited
Address: R J Hall Civil & Environmental Consulting Limited (Timaru),
PO Box 503, Timaru,

CRC011361 - To divert surface water from Little Omarama Stream to an irrigation race at a maximum rate not exceeding 170 litres per second, and a volume not exceeding 4896 cubic metres per day, at or about map reference NZMS 260: H40:635-166; and

- to take and use water at a maximum rate not exceeding 170 litres per second, and a volume not exceeding 4,896 cubic metres per day, and a volume not exceeding 180,000 cubic metres per year, from an irrigation race located at or about map reference NZMS 260: H40:635-166, for domestic and stock use and border dyke irrigation of up to 30 hectares of pasture at Twinburn, Broken Hutt Road, Omarama. A 35 year duration is sought.

- to take and use water from Little Omarama Stream at a maximum rate not exceeding 30 litres per second, and a volume not exceeding 2,592 cubic metres per day, at or about map reference NZMS 260: H40:628-183 for stock and domestic needs at Twinburn, Broken Hutt Road, Omarama. A 35 year duration is sought.

- to divert surface water from Omarama Stream to an irrigation race at a maximum rate not exceeding 350 litres per second, and a volume not exceeding 18,900 cubic metres per day, at or about map reference NZMS 260: H40:613-159, and

- to take and use water at a maximum rate not exceeding 350 litres per second, and a volume not exceeding 18,900 cubic metres per day, and a volume not exceeding 690,000 cubic metres per year, from an irrigation race, at or about map reference NZMS 260: H40:613-159 for stock use and border dyke irrigation of up to 115 hectares of pasture at Twinburn, Broken Hutt Road.

- to divert surface water from Omarama Stream into an irrigation race at a maximum rate not exceeding 290 litres per second, and a volume not exceeding 11,185 cubic metres per day, at or about map reference NZMS 260: H40:615-177; and

- to take and use water at a maximum rate not exceeding 290 litres per second, and a volume not exceeding 11,185 cubic metres per day, and a volume not exceeding 1,020,000 cubic metres per year, from an irrigation race at or about map reference NZMS 260: H40:615-177 for border dyke irrigation of up to 170 hectares of pasture at Dunstan Peaks, Broken Hutt Road, Omarama. A 35 year duration is sought.

- to divert surface water from Twaddles Creek into an irrigation race at a maximum rate not exceeding 100 litres per second, and a volume not exceeding 8,640 cubic metres per day, at or about map reference NZMS 260: H40: 603-198; and

- to dam water from a water race in a storage header pond at a maximum volume of 45,000 cubic metres located at or about NZMS 260: H40: 603-198, and

- to take and use water at a maximum rate not exceeding 100 litres per second, and a volume not exceeding 8,640 cubic metres per day, and a volume not exceeding 90,000 cubic metres per year, from an irrigation race, at or about map reference NZMS 260: H40:603-198 for border dyke irrigation of up to 15 hectares of pasture at Dunstan Peaks, Broken Hutt Road, Omarama. A 35 year duration is sought.

- to divert surface water from Middle Gully into an irrigation race at a maximum rate not exceeding 150 litres per second, and a volume not exceeding 90,720 cubic metres per day, at or about map reference NZMS 260: H40:614-192; and

- to dam and hold water from the irrigation race in a storage header pond at a maximum volume of 45,000 cubic metres at or about map reference NZMS 260: H40:614-192, and

- to take and use water at a maximum rate not exceeding 150 litres per second, and a volume not exceeding 90,720 cubic metres per day, and a volume not exceeding 90,000 cubic metres per year, from an irrigation race, at or about map reference NZMS 260: H40:614-192 for stock and domestic supply. A 35 year duration is sought.

- to divert surface water from an irrigation race at a maximum rate not exceeding 115 litres per second, and a volume not exceeding 69,552 cubic metres per day, at or about map reference NZMS 260: H40:613-197; and

- to take and use water from an irrigation supply race at a maximum rate not exceeding 115 litres per second, and a volume not exceeding 69,552 cubic metres per day, at or about map reference NZMS 260: H40:613-197 for electricity generation at Dunstan Peaks, Broken Hutt Road, Omarama. A 35 year duration is sought. The above applications are for existing activities.

CRC011362 - To discharge unused water/surplus irrigation water into Twaddle Creek at a maximum rate not exceeding 150 litres per second, and a volume not exceeding 90,720 cubic metres per day, at Dunstan Peaks, Broken Hutt Road, Omarama, at or about map reference NZMS 260: H39:607-201. A 35 year duration is sought.

-to discharge water used for power generation into Twaddle Creek at a maximum rate not exceeding 30 litres per second, and a volume not exceeding 69552 cubic metres per week, at or about map reference NZMS 260: H40:613-197. A 35 year duration is sought.

- to divert surface water from Twaddle Creek in to an irrigation race at a maximum rate not exceeding 45 litres per second, and a volume not exceeding 3,888 cubic metres per day, at or about map reference NZMS 260: H40:606-219; and

- to take and use water race at a maximum rate not exceeding 45 litres per second, and a volume not exceeding 3,888 cubic metres per day, and a volume not exceeding 72,000 cubic metres per year, from an irrigation race at or about map reference NZMS 260: H40:606-219 for border dyke irrigation of up to 12 hectares of pasture at Clifton Downs, Broken Hutt Road, Omarama. A 35 year duration is sought. The above applications are for existing activities.

CRC011363 - To disturb the bed and banks at Little Omarama Stream to facilitate the taking of water and to carry out remedial works as required to maintain the diversion structure, at or about map references NZMS 260 H40:635-166, NZMS 260 H40:613-159 and NZMS 260 H40:615-177.

- to disturb the bed and banks at Twaddles Creek to facilitate the taking of water and to carry out remedial works as required to maintain the diversion structure, at or about map references NZMS 260 H40:603-198 and NZMS 260 H40:606-219.

- to disturb the bed and banks at Middle Gully to facilitate the taking of water and to carry out remedial works as required to maintain the diversion structure, at or about map references NZMS 260 H40:606-183 and NZMS 260 H40:614-192. This is a new application for works in the bed or banks of a waterway at Twinburn, Dunstan Peaks and Clifton Downs, Broken Hutt Road, Omarama. A 35 year duration is sought.

Applications CRC011363 and CRC011362, were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC011361 was publicly notified on the following dates:

- 6 December 2003 as part of the MfE call-in of all Waitaki consents.
- 4 August 2007 (with submission closing 28 September 2007).

FALCONER, MACASSEY & COOK ALLAN GIBSON TRUSTEE CO LTD

Applicant: Mrs Falconer, Mr Macassey & Cook Allan Gibson Trustee Co Ltd
Address: R J Hall Civil & Environmental Consulting Limited (Timaru)
PO Box 503, Timaru

CRC060253 - To take and use water from Coal Creek at a maximum rate not exceeding 14 litres per second, and a volume not exceeding 1209.6 cubic metres per day from between map references NZMS 260: H39:864-329 and H39:866-334. To take and use water from Shepherds Creek at a maximum rate not exceeding 14 litres per second, and a volume not exceeding 1209.6 cubic metres per day from between map references NZMS 260 H39:847-

350 and H39:860-355. The combined volume of water taken shall not exceed 356,000 cubic metres per year. Water will be used for spray irrigation of up to 80 hectares of pasture and winter feed crops at McAughtries Road, Lake Benmore. A 35 year duration is sought.

Application CRC060253 was publicly notified on 4 August 2007 with submissions closing 28 September 2007.

FIVE RIVERS LIMITED

Applicant: Five Rivers Limited
Address: R J Hall Civil & Environmental Consulting Limited (Timaru),
PO Box 503, Timaru

CRC061154 - To take and use surface water at a maximum rate not exceeding 950 litres per second, with an annual volume not exceeding 9,000,000 cubic metres, from Lake Ohau between map references NZMS 260 H38:6566-5350 and H38:6298-5280 for the spray irrigation of 1,500 hectares of crops and pasture for stock excluding dairy cows adjoining Lake Ohau Road at Ohau Downs Station between Lake Ohau and the Twizel Omarama Road. The maximum rate and annual volume of water proposed to be taken under this application will be a combined volume taken under CRC061154 and CRC061155. A duration until 2025 is sought.

Application CRC061154 was publicly notified on 4 August 2007 with submissions closing 28 September 2007.

GLENMORE STATION LIMITED

Applicant: Glenmore Station Limited
Address: Aqualinc Research Limited, PO Box 20 462, Bishopdale, Christchurch

CRC052501 - To divert surface water from Cass River, at a maximum rate not exceeding 230 litres per second, and a volume not exceeding 19,872 cubic metres per day, at or about map reference NZMS 260: I37:062-007, at Glenmore Station, Godley Peaks Road, Lake Tekapo. A 35 year duration is sought.

CRC052502 - To take water from Cass River, at a maximum rate not exceeding 230 litres per second, and a volume not exceeding 19,872 cubic metres per day and 1,260,000 cubic metres per year, at or about map reference NZMS 260: I37: 062-007, for border-dyke irrigation of up to 180 hectares of pasture and forage crops, stock water and domestic purposes at Glenmore Station, Godley Peaks Road, Lake Tekapo. A 35 year duration is sought

CRC052503 - To discharge surplus irrigation water into Mailbox Swamp Creek, at a maximum rate not exceeding 230 litres per second, and a volume not exceeding 19,872 cubic metres per day, at Glenmore Station, at or about map reference NZMS 260: I37:068-980. A 35 year duration is sought.

CRC073109 - To disturb the bed of Cass River to construct and maintain a gravel bar to facilitate the diversion of water to the intake structure between map references I37:061-007 and I37:062-007 at Glenmore Station, Lake Tekapo. A 35 year duration is sought.

Applications CRC052501, CRC052502, CRC052503 and CRC073109 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

GLENTANNER STATION LIMITED

Applicant: Glentanner Station Limited
Address: Irrigation Resource Solutions Ltd, PO Box 80, Lake Tekapo

CRC071362 - To take and use surface water at a maximum rate not exceeding 116 litres per second, and a volume not exceeding 70,157 cubic metres in any period of seven consecutive days, and 1,200,000 cubic metres per year, from either Pukaki Canal at or about map reference NZMS 260: H38:805-641 or from Lake Pukaki at or about map reference NZMS 260 H38:822-649 for spray irrigation of up to 200 hectares of crops and pasture for grazing stock, at Glentanner Station, State Highway 8, Pukaki. A duration until 2025 is sought.

CRC083609 – To take and use surface water from Tekapo stilling basin, between at or about map references NZMS 260 H38:8820-7260 and H38:8845-7324, at a maximum rate of 116 litres per second, with a volume not exceeding 1,200,000 cubic metres between 1 July and the following 30 June, for the spray irrigation of up to 200 hectares of pasture and crops, and for stockwater use, at Catherine Fields, State Highway 8, Lake Pukaki. This is an application for a new activity. The applicant has requested a duration of 17 years.

CRC092721 - a land use consent to undertake works in the bed and bank of Lake Pukaki, to construct and maintain an intake structure to facilitate the abstraction of water from Lake Pukaki, between map references NZMS 260 H38:8235-6520 and NZMS 260 H38:8217-6519, at State Highway 8, east of the Pukaki Dam. This is an application for a new activity but it relates to resource consent application CRC071362. The duration of 35 years is sought.

Application CRC071362 was publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC083609 was publicly notified on 18 October 2008 with submissions closing on 17 November 2008.

Application CRC092721 was publicly notified on 18 February 2009 with submissions closing on 18th March 2009.

GRAHAM, F I

Applicant: Mr F I Graham

Address: Irrigation Resource Solutions Ltd, PO Box 80, Lake Tekapo

CRC072363 - To divert, take and use water from Black Jack Stream, at a maximum rate not exceeding 12 litres per second, and a volume not exceeding 7,258 cubic metres per week, and 150,000 cubic metres between 1st July and the following 30th June, at or about map reference NZMS 260: I39:956-250 for the spray irrigation of 25 hectares, at Te Akatarawa Station, Te Akatarawa Road, Kurow. A 35 year duration is sought.

Application CRC072363 was publicly notified on 4 August 2007 with submissions closing 28 September 2007.

GRAY HILLS STATION LIMITED

Applicant: Grays Hills Station Limited

Address: R J Hall Civil & Environmental Consulting Limited (Timaru)
PO Box 503, Timaru

CRC042661 - To take water from Grays River from galleries I38/0057 and I38/0058 each at a maximum rate not exceeding 100 litres per second and a volume not exceeding 8,640 cubic metres per day, at or about map references NZMS 260: I38:0500-6170 and I38:0810-64200, at a maximum combined volume of 2,304,000 cubic metres per year for the irrigation of 384 hectares of land between the Grays River and Tekapo River, at Grays Hills Station, Haldon Road, Fairlie. A duration until 2025 is sought.

Application CRC042661 was publicly notified on 4 August 2007 with submissions closing 28 September 2007.

HALDON STATION LIMITED

Applicant: Haldon Station Limited

Address: C/- Environmental Consultancy Services Ltd. PO Box 952, Timaru

CRC082268 – To disturb the bed of Stony River at or about map reference NZMS 260 I39:9830-4481 for the purposes of maintaining an existing weir and irrigation intake structure for take and diversion of water under consent CRC082269 at Haldon Arm Road, Benmore.

CRC082269 – To divert water at a rate of 320 litres per second and 4 million cubic metres per year from Stony River at or about map reference NZMS 260 I39:9828-4484, and to take and use water at a maximum rate of 280 litres per second, up to 24,192 cubic metres of water per day, with a total of 73,780 cubic metres per year for stockwater and 3,163,100 cubic metres per year for irrigation of up to 470 hectares of pasture, at or about map reference I39:9725-4524 at Haldon Arm Road, Benmore.

CRC082270 – To dam water in Stony River to a maximum height of one metre above the bed of the river at or about map reference NZMS 260 I39:9830-4481 for the purpose of maintaining continuous flow to an irrigation intake at Haldon Arm Road, Benmore.

CRC082271 – To discharge water from an irrigation intake race at a maximum rate of 40 litres per second at or about map reference NZMS 260 I39:9725-4524 from where it enters Stony River, and to discharge irrigation bywash water at a maximum rate of 150 litres per second from a wetland into Stony River at or about map reference NZMS 260 I39:9204-4662 at Haldon Arm Road, Benmore.

A duration of 35 years is requested for each of the above consents. These applications are for the replacement of resource consents WTK864681A.1 WTK864681B.1 and WTK864681C.1. The activities to be carried out are to the same extent as previously authorised, and include a reduction in the presently authorised seasonal volume used for irrigation purposes.

CRC042561 - To take and use water at a maximum combined rate of 100 litres per second and a volume not exceeding 8,640 cubic metres per day and not exceeding 1,278,700 cubic metres per year, from bore I39/0004 (300mm diameter and 70.3 metres deep) at map reference NZMS 260 I39:9166-4765 and bore I39/0005 (300mm diameter and 80 metres deep) at map reference NZMS 260 I39:9062-4728 for the spray irrigation of 190 hectares of pasture at Haldon Arm Road, Benmore. A 35 year duration is sought.

Application CRC042561 was publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Applications CRC082268, CRC082269, CRC082270 and CRC082271 were publicly notified on 3 May 2008 with submissions closing 1 July 2008.

HIGH COUNTRY ROSEHIP ORCHARDS LIMITED

Applicant: High Country Rosehip Orchards Limited

Address: Irrigation Resource Solutions Ltd, PO Box 80, Lake Tekapo

CRC072232 - To construct an intake structure in the wall of the Ohau B Canal, between approximate map references NZMS 260 H38: 794-525 and H38: 790-526; To disturb the bed of the Ohau River to lay a pipeline for the supply of water for irrigation, between approximate map references NZMS 260 H38:797-528 and H38: 802-530, and associated maintenance works to sustain the pipeline and abstraction approximately 2 kilometres south-east of State Highway 8, Twizel. A duration until 2025 is sought.

CRC072233 - To take and use water at a maximum rate of 345 litres per second, at a maximum volume of 208,656 cubic metres per week and a maximum volume of 3,000,000 cubic metres per year from the Ohau B Canal, between approximate map references NZMS 260 H38: 794-525 to H38: 790-526, for the purpose of spray irrigating 500 hectares of rosehips, crops and pastures for beef and sheep stock, and a golf course/lifestyle area near State Highway 8, Twizel. A duration until 2025 is sought.

Applications CRC072232 and CRC072233 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

HOPE, A N

Applicant: Mr A N Hope
Address: R J Hall Civil & Environmental Consulting Limited (Timaru)
PO Box 503, Timaru

CRC041542 - To take and use water from an infiltration gallery from Grays River at a maximum rate not exceeding 166 litres per second, and a volume not exceeding 1,642,200 cubic metres per year, at map reference NZMS 260 I38:0930-6440, for spray irrigation of up to 238 hectares of crops and pasture for grazing stock, excluding milking dairy cows, at Haldon Road, Twizel. A duration until 2025 is sought.

CRC041543 - To take and use water from an infiltration gallery from Snow River at a maximum rate not exceeding 84 litres per second, and a volume not exceeding 1,014,300 cubic meters per years, at map reference NZMS 260 I38:1230-6130, for spray irrigation of up to 147 hectares of crops and pasture for grazing stock, excluding milking dairy cows, at Haldon Road, Twizel. A duration until 2025 is sought.

CRC041545 - To discharge unused irrigation water to Grays River at a maximum rate of 29 litres per second, at or about map reference NZMS 260 I38:0262-6076, at Haldon Road, Twizel. A duration until 2025 is sought.

Applications CRC041542, CRC041543, and CRC041545 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

HORO, MAREE

Applicant: Ohau Company Trust Limited
Address: Brooks and Associates, PO Box 31 079, Christchurch

CRC042011 - To divert up to 57 litres per second of water from Quail Burn, at or about map reference NZMS 260 H39:583-441; and to take and use water at a maximum rate of 30 litres per second, and a maximum volume of 35,000 cubic metres per week and 600,000 cubic metres per year, for spray irrigation of 100 hectares of pasture and winter fodder crops, and stockwater, at Ribbonwood Station, Quailburn Road, Omarama. A duration until 2025 is sought.

CRC042015 - To divert up to 57 litres per second of water from Quail Burn at or about map reference NZMS 260 H39:558-446; and to take and use water at a maximum rate of 30 litres per second, and a maximum volume of 35,000 cubic metres per week and a maximum volume of 600,000 cubic metres per year, for spray irrigation of 100 hectares of crops and pasture, and stockwater, at Ribbonwood Station, Quailburn Road, Omarama. A duration until 2025 is sought.

CRC042017 - To divert up to 57 litres per second of water from Quail Burn, at or about map reference NZMS 260 H39: 581-443; and to take and use water at a maximum rate of 30 litres per second and a maximum volume of 35,000 cubic metres per week and a volume not exceeding 600,000 cubic metres per year for spray irrigation of 100 hectares of crops and pasture, and stockwater, at Ribbonwood Station, Quailburn Road, Omarama. A duration until 2025 is sought.

CRC042018 - To divert up to 57 litres per second of water from East Diadem Stream, at or about map reference NZMS 260 H39:563-411; and to take and use water at a maximum rate of 30 litres per second and a maximum volume of 35,000 cubic metres per week and a maximum volume of 600,000 cubic metres per year, for spray irrigation of 100 hectares of crops and pasture, and stockwater, at Ribbonwood Station, Quailburn Road, Omarama. A duration until 2025 is sought.

CRC042020 - To divert up to 570 litres per second of water from the East Branch of the Ahuriri River, at or about map reference NZMS 260 G39:486-412; and to take and use water at a maximum rate of 250 litres per second and at a maximum volume of 21,600 cubic metres per day and a maximum volume of 2,100,000 cubic metres per year, for irrigation of 350 hectares of crops and pasture, and stockwater, at Ribbonwood Station, Quailburn Road, Omarama. A duration until 2025 is sought.

CRC042022 - To divert up to 57 litres per second of water from Wairepo Stream, at or about map reference NZMS 260 H39:599-458; and to take and use water at a maximum rate of 30 litres per second, at a maximum volume of 35,000 cubic metres per week and a maximum volume of 750,000 cubic metres per year, for spray irrigation of 125 hectares of crops and pasture, and stockwater, at Ribbonwood Station, Quailburn Road, Omarama. A duration until 2025 is sought.

CRC042025 - To divert up to 57 litres per second of water from Wairepo Stream, at or about map reference NZMS 260 H39:586-461; and to take and use water at a maximum rate of 30 litres per second and a maximum volume of 35,000 cubic metres per week and a maximum volume of 750,000 cubic metres per year, for spray irrigation of 125 hectares of crops and pasture, and stockwater, at Ribbonwood Station, Quailburn Road, Omarama. A duration until 2025 is sought.

Applications CRC042011, CRC042015, CRC042017, CRC042018, CRC042020, CRC042022 and CRC042025 were publicly notified on 4th August 2007 (with submissions closing on 28 September 2007).

IRISHMAN CREEK STATION LIMITED

Applicant: Irishman Creek Station Limited
Address: R J Hall Civil & Environmental Consulting Limited (Timaru)
PO Box 503, Timaru

CRC011845 - To divert and use water from Irishman Creek at a maximum rate of 500 litres per second for hydro-electric power generation at or about map reference NZMS 260 I38:971-793 being Irishman Creek Station, State Highway 8, Lake Tekapo.

- to also take and use water from Irishman Creek at a maximum rate of 140 litres per second and a volume not exceeding 11,592 cubic metres per day and not exceeding 993,600 cubic metres per year, for the border dyke irrigation of 48 hectares of crop and pasture at or about map reference NZMS 260 I37:974-802, being Irishman Creek Station, State Highway 8, Lake Tekapo. A 35 year duration is sought

CRC011846 - To discharge water at a rate not exceeding 500 litres per second into Irishman Creek from the diversion and use of the water for hydro-electric power generation at or about map reference NZMS 260 I38:974-782 being Irishman Creek Station, State Highway 8, Lake Tekapo. A 35 year duration is sought.

Application CRC011846 was publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC011845 was publicly notified on the following dates:

- 6 December 2003 as part of the MfE call-in of all Waitaki consents.
- 4 August 2007 (with submissions closing 28 September 2007).

Since public notification, CRC011845 has been separated into two consents, CRC011845 dealing with the use of water for irrigation, and CRC084263 dealing with the use of water for electricity generation.

KILLERMONT STATION LIMITED

Applicant: Killermont Station Limited

Address: Water Resources Otago Limited, PO Box 47, Cromwell

CRC040181 - To dam Frosty Gully to a height of 2.5 metres, impounding 500 cubic metres of water, at or about map reference NZMS 260 H39:559-248, for irrigation purposes on Killermont Station, State Highway 8, Omarama. A 35 year duration is sought.

CRC041330 - To maintain an existing intake structure in the bed of the Ahuriri River, at or about map reference NZMS 260 H39:6062-2992, for the purposes of supplying stockwater and irrigation water to Killermont Station, Omarama Station and Tara Hills Stations. A 35 year duration is sought.

CRC041331 - To take and use water at a maximum rate of 100 litres per second, and a maximum volume of 8,640 cubic metres per day and 1,209,600 cubic metres per year, from the Ahuriri River, at or about map reference NZMS 260 H39: 6133-3007, for spray irrigation of 216 hectares of pasture at Killermont Station, State Highway 8, Omarama. A 35 year duration is sought.

CRC041332 - To discharge surplus irrigation water into the Ahuriri River at a maximum rate of 100 litres per second, at or about map reference NZMS 260 H39: 6234-3058, at Killermont Station, State Highway 8, Omarama. A 35 year duration is sought.

CRC041776 - To disturb the bed of the Ahuriri River, at or about map reference NZMS 260 H39: 552-283 downstream to H39:561-278, for the purpose of maintaining flow through an existing section of river channel and maintaining water depth at the proposed water supply intake; to disturb a section of river bed on the true right bank of the Ahuriri River for the purpose of constructing and maintaining a water supply intake, an access track, buried pipeline and associated flood protection works, opposite Killermont Station, State Highway 8, Omarama. A 35 year duration is sought.

CRC041777 - To take up to 3,150,000 cubic metres of water per year from the Ahuriri River, at or about map reference NZMS 260 H39: 558 277, at a maximum rate of 200 litres per second and a maximum daily volume of 17,280 cubic metres per day for stockwater, storage and spray irrigation at Killermont Station, State Highway 8, Omarama.

- to use a maximum volume of 1,680,000 cubic metres of water per year for spray irrigation of up to 300 hectares of pasture. A 35 year duration is sought.

CRC041798 - To take and use water at a maximum rate of 37 litres per second and a maximum volume of 3,197 cubic metres per day from Manuka Creek, at or about map reference NZMS 260 H39:5588-2368, for spray irrigation of 75 hectares of pasture, at Killermont Station, State Highway 8, Omarama.

Note: Consent CRC041798 is to be exercised concurrently with existing consent CRC000002.1. The combined maximum volume of water abstracted under both consents shall not exceed 725,000 cubic metres per year or 5,184 cubic metres per day, at a maximum rate of 60 litres per second. A 35 year duration is sought.

CRC040180 - To take and use surface water from Frosty Gully (a tributary of Omarama Stream), at or about map reference NZMS 260 H39:5532-2497, at a maximum rate of 40 litres per second, with a volume not exceeding 378,000 cubic metres between 1 July and the following 30 June. Water will be used for the irrigation of up to 54 hectares of pasture, for grazing stock, at Killermont Station, south of State Highway 8, Omarama. This application is to replace consent for an existing activity, with an increase in allocation. The applicant has requested a duration of 35 years.

Applications CRC040181, CRC041330, CRC041331, CRC041332, CRC041776, CRC041777 and CRC041798 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC040180 was publicly notified on 18 October 2008 with submissions closing on 17 November 2008.

LILYBANK STATION HOLDINGS LIMITED

Applicant: Lilybank Station Limited
Address: Irrigation Resource Solutions Ltd, PO Box 80, Lake Tekapo

CRC071785 - to excavate, construct and maintain a rock infiltration intake structure and associated pipe works to facilitate the abstraction of water, in the bed of Station Stream, between map references NZMS 260 I36:132-215 and NZMS 260 I36:133-219, at Lilybank Station, Lilybank Road, Lake Tekapo. A duration until 2025 is sought.

CRC071786 - to divert, take and use surface water from Station Stream at a maximum rate not exceeding 100 litres per second, and a volume not exceeding 60,480 cubic metres in any period of seven consecutive days, and 1,032,000 cubic metres between 1st July and the following 30th June, between map references NZMS 260 I36:132-215 and NZMS 260 I36:133-219 for spray irrigation of up to 172 hectares of crops and pasture for grazing stock, excluding milking dairy cows and a links type golf course, at Lilybank Station, Lilybank Road, Lake Tekapo. A duration until 2025 is sought.

Applications CRC071785, and CRC071786 were publicly notified on 29 September 2007 with submissions closing 26 November 2007.

LONE STAR FARMS LIMITED

Applicant: Lone Star Farms Limited
Address: Aqualinc Research Ltd, PO Box 20 462, Bishopdale, Christchurch

CRC031175 - To divert surface water from Mistake River at a maximum rate not exceeding 290 litres per second, and a volume not exceeding 25,056 cubic metres per day, at or about map reference NZMS 260: I37: 065-037; and

To take water at a maximum rate not exceeding 261 litres per second, and a volume not exceeding 22,550 cubic metres per day, and 2,700,000 cubic metres per year, from a holding pond approximately 300 metres from the diversion point, at or about map reference NZMS 260: I37:067-035, for spray irrigation of up to 450 hectares of pasture and forage crops, stock water and domestic purposes at Godley Peaks Station, Godley Peaks Road, Lake Tekapo. A 35 year duration is sought.

CRC031176 - To discharge unused irrigation water to Mistake River at a maximum rate not exceeding 290 litres per second, and a volume not exceeding 25,056 cubic metres per day at or about map reference NZMS 260: I37: 067-038, at Godley Peaks Station, Lake Tekapo. A 35 year duration is sought

CRC073235 - To disturb the bed of the Mistake River to construct and maintain a 45 metres long gravel bund to facilitate the diversion of water to an irrigation race between map references NZMS 260 I37:062-036 and NZMS 260 I37:064-036; and to construct a discharge and erosion control structure at or about map reference NZMS 260 I37:068-038, at Godley Peaks Station, Lake Tekapo. A 35 year duration is sought.

CRC073236 - To disturb the bed of Mistake River to install a pipeline under Mistake River between map references NZMS 260 I37:070-038 to NZMS 260 I37:071-039 at Godley Peaks Station, Lake Tekapo. A 35 year duration is sought.

Applications CRC0732325, and CRC073236 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC031176 was publicly notified on the following dates:

- 19 April 2003 (with submissions closing 20 May 2003).
- 4 August 2007 (with submissions closing 28 September 2007).

Application CRC031175 was publicly notified on the following dates:

- 19 April 2003 (with submissions closing 20 May 2003).
- 6 December 2003 as part of the MfE call-in of all Waitaki consents.
- 4 August 2007 (with submissions closing 28 September 2007).

MCAUGHTRIE, D W

Applicant: Mr D W McAughtrie

Address: R J Hall Civil & Environmental Consulting Limited (Timaru)
PO Box 503, Timaru

CRC011939 - To discharge irrigation bywash water at a rate not exceeding 85 litres per second, with a volume not exceeding 7,344 cubic metres per day, to Willowburn Swamp at or about map reference NZMS 260 H39:690-346. A 35 year duration is sought.

CRC011940 - To take water at a rate not exceeding 85 litres per second, and a volume not exceeding 7,344 cubic metres of water per day, and 935,000 cubic metres per year, from any point on a water race between map reference NZMS260 H39:701-430 and H36:696-396 and any point on a water race between map reference NZMS260 H:39-378 and H39:690-346, for spray irrigation of 85 hectares at Willowburn Station, adjacent to State Highway 8 (Twizel Omarama Road) between Lake Ohau Road and Quailburn Road. A 35 year duration is sought

Applications CRC011939, and CRC011940 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

MCAUGHTRIE, D W, GREENFIELD RURAL OPPORTUNITIES LTD & ELLIS-LEA FARMS (2000) LTD

Applicant: The Glens Ltd, Mr D W McAughtrie & Mr T J & Mrs J Cooke

Address: R J Hall Civil & Environmental Consulting Limited (Timaru)
PO Box 503, Timaru

CRC991473 - To divert surface water from Quailburn Stream into the Quailburn Government Race at a maximum rate not exceeding 170 litres per second, and a volume not exceeding 14,688 cubic metres per day, at or about map reference NZMS 260: H39:638-371; and

- to take and use water from the Quailburn Government Race and a storage pond fed from the Quailburn Government Race, at a maximum rate not exceeding 170 litres per second, and a volume not exceeding 14,688 cubic metres per day and 3,219,000 cubic metres per year, from, between at or about map reference NZMS 260: H39:638-371 and H39:678-392 for stock water and spray and border dyke irrigation of up to 500 hectares within a total area of 2,100 hectares of pasture & winter feed crops at The Glens, Willowburn Station and Riverside Station at Quailburn Road, Twizel Omarama Road and State Highway 8, Omarama. A 35 year duration is sought.

CRC991474 - To disturb the bed and banks of Quailburn Stream to facilitate the taking of water and to carry out remedial works as required to maintain the diversion structure, at or about map reference NZMS 260 H39:638-371. A 35 year duration is sought.

CRC991475 - To discharge unused water/surplus irrigation water into Quailburn Stream at a maximum rate not exceeding 170 litres per second, and a volume not exceeding 14,688 cubic metres per day, at or about map reference NZMS 260: H39:638-371. A 35 year duration is sought.

Application CRC991473 was publicly notified on the following dates:

- 6 December 2003 as part of the MfE call-in of all Waitaki consents.
- 4 August 2007 (with submissions closing 28 September 2007).

Applications CRC991474 and CRC991475 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

MUNRO, S J

Applicant: Mr S J B Munro
Address: C/- Paterson Pitts Partners Limited, P O Box 1083, Dunedin 9001

CRC060938 - to take and use surface water from Lake Aviemore, at or about map reference NZMS 260 I40:983-147, at a maximum rate of 3 litres per second, up to 100 cubic metres per day, with a volume not exceeding 24,000 cubic metres between 1 July and the following 30 June, for irrigation of 6 hectares of vineyard at Rugged Ridges, State Highway 83, Lake Aviemore. This application is for a new activity. The applicant has requested a duration of 35 years.

Application CRC060938 was publicly notified on 18 October 2008 with submissions closing 17 November 2008

OTAMATAPAIO STATION LIMITED

Applicant: Otamatapaio Station (1993) Limited
Address: C/- Duncan Cotterill, Lawyers, PO Box 5, CHRISTCHURCH

CRC012047 - To divert up to 250 litres per second of water and a maximum volume of 21,600 cubic metres per day from the Otamatapaio River, at or about map reference NZMS 260 H40:774-195, approximately 5.7 km south-west of Lake Benmore; to take and use water for domestic use and stockwater at a maximum rate of 50 litres per second, and to use water at a maximum rate of 200 litres per second for irrigation of 345 hectares of pasture and winter crop for stock at Otamatapaio Station, State Highway 83. A 35 year duration is sought.

CRC012049 - To discharge by-wash water into Clarks Creek at a maximum rate of 250 litres per second, at or about map reference NZMS 260 H39:783-233, approximately 1.9 km south-west of Lake Benmore, at Otamatapaio Station, State Highway 83. A 35 year duration is sought.

CRC012727 - To maintain a diversion and intake structure in the bed of the Otamatapaio River, at or about map reference NZMS 260 H40:774-195, at Otamatapaio Station, approximately 5.7 km south-west of Lake Benmore, at Otamatapaio Station, State Highway 83. A 35 year duration is sought.

Applications CRC012047 CRC012049, and CRC012727 were publicly notified on the following dates:

- 5 July 2003 with submissions closing 1 August 2003.
- 4 August 2007 with submissions closing 28 September 2007.

OTEMATATA STATION LIMITED

Applicant: Otematata Station Limited
Address: R J Hall Civil & Environmental Consulting Limited (Timaru)
PO Box 503, Timaru

CRC020355 - To take and use water from Lake Waitaki at a maximum rate of 35 litres per second and a maximum volume of 18,500 cubic metres per ten day return period and 222,000 cubic metres per year, at or about map reference NZMS 260 I40: 0150-1241, for the spray irrigation of 37 hectares of crops, pasture and winter feed at Otematata Station, State Highway 83, Otematata. A 35 year duration is sought.

CRC041033 - To divert up to one cubic metre of water per second from Glen Bouie Creek into an open water race, at or about map reference NZMS 260 H40:792-084; to divert up to one cubic metre of water per second from Backyard Stream into an open water race, at or about map reference NZMS 260 H40: 799-157; to take and use water from a storage dam, at or about map reference H40:796-163, at a maximum rate of 75 litres per second and a maximum volume of 64,800 cubic metres over ten consecutive days and a maximum volume of 972,000 cubic metres per year, for spray irrigation of 162 hectares of crops and pasture, at Otematata Station, State Highway 83, Otematata. A 35 year duration is sought.

CRC052739 - To discharge up to one cubic metre of water per second from an open water race into Backyard Stream, at or about map reference NZMS 260 H40:788-120; to discharge up to one cubic metre of water per second from an open water race into a storage dam on an unnamed tributary of Corbies Creek, at or about map reference NZMS 260 H40:796-163, at Otematata Station, State Highway 83, Otematata. A 35 year duration is sought.

CRC052740 - To disturb the bed of Glen Bouie Creek, at or about map reference NZMS 260 H40: 792-084 for the purposes of the construction and maintenance of an intake structure for an open water race; To disturb the bed of Backyard Stream, at or about map reference NZMS 260 H40: 799-157, for the purposes of the construction and maintenance of an intake structure for an open water race, at Otematata Station, State Highway 83, Otematata. A 35 year duration is sought.

CRC052741 - To construct and maintain a compacted earth dam with a capacity of 300,000 cubic metres in an unnamed tributary of Corbies Creek, at or about map reference NZMS 260 H40:796-163, at Otematata Station, State Highway 83, Otematata. A 35 year duration is sought.

CRC052742 - To dam up to 300,000 cubic metres of water in an unnamed tributary of Corbies Creek, at or about map reference NZMS 260 H40: 796-163, at Otematata Station, State Highway 83, Otematata. A 35 year duration is sought.

CRC052743 - To discharge water from the emergency spillway of a storage dam in an unnamed tributary of Corbies Creek, at or about map reference NZMS 260 H40: 796-163, at Otematata Station, State Highway 83, Otematata. A 35 year duration is sought.

Applications CRC020355 and CRC041033 were publicly notified on the following dates:

- 6 December 2003 as part of the MfE call-in of all Waitaki consents.
- 4 August 2007 (with submissions closing 28 September 2007).

Applications CRC052739, CRC052740, CRC052742 and CRC052743 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

PUKAKI IRRIGATION COMPANY LIMITED

Applicant: Pukaki Irrigation Limited

Address: Aqualinc Research Limited, PO Box 20 462, Bishopdale, Christchurch

CRC062866 - To construct, maintain and operate an irrigation intake structure at either Pukaki Canal at or about map reference NZMS 260 H38:805-641, or Lake Pukaki, including a pumping station, at or about map reference NZMS 260 H38:822-649. A 35 year duration is sought

CRC062870 - To construct and maintain a pipeline under the Pukaki river between at or about map references H38:822-637 to H38:827-637 at State Highway 8, Pukaki River. A 35 year duration is sought.

CRC062871 - To construct and maintain a pipeline to be laid under three unnamed streams or install culverts on the beds of the streams at or about map reference H38:836-631, H38:843-630 and H38:849-634 or H38:835-636, H38:845-637 and H38:860-540 unnamed streams. A 35 year duration is sought

CRC062872 - To construct, maintain and operate an erosion control and discharge structure in the Pukaki River at or about map reference H38:874-563 and H38:880-540 at State Highway 8, Pukaki River. A 35 year duration is sought.

CRC082300- A land use consent to construct and maintain a pipeline under four unnamed ephemeral streams, to enable a water supply to pass under the streams, between at or about map references NZMS 260 H38:884-662 and H38:885-662; H38:845-641 and H38:846-641; H38:848-642 and H38:849-642; and H38:861-643 and H38:862-643; adjacent to Lake Pukaki, State Highway 8, South of Tekapo Stilling Basin. This is an application for a new activity. The applicant has requested a duration of 17 years.

Applications CRC062866, CRC062870, CRC062871 and CRC062872 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC082300 was publicly notified on 18 October 2008 with submissions closing on 17 November 2008.

ROSEHIP ORCHARDS NZ LIMITED

Applicant: Rosehip Orchards NZ Limited

Address: Irrigation Resource Solutions Ltd, PO Box 80, Lake Tekapo

CRC021749 - To divert, take and use up to 117,332 cubic metres of water per week at a maximum rate of 194 litres per second, and a maximum volume of 2,490,000 cubic metres per year from the Twizel River, at or about map reference NZMS 260 H38:846-516, to supply water for irrigation of up to 415 hectares of rosehips crops and pastures for sheep and beef stock, approximately 7 km south-east of Twizel along State Highway 8. A duration until 2025 is sought.

CRC021750 - To install a gallery in the river and undertake river works for water abstraction from the Twizel River and associated maintenance works, at or about map reference NZMS 260 H38:846-516, approximately 7 km south east of SH8, Twizel. A duration until 2025 is sought.

CRC072117 - To construct an intake structure in the wall of the Ohau B-C Canal, between, at, or about map references NZMS260 H39: 842-492 and H39: 852-481; To disturb the bed of the Ohau River to lay a pipeline for the supply of water for irrigation, at or about map reference NZMS 260 H39:856-490, and associated maintenance works to maintain the pipeline and abstraction, approximately 9 km south-east of State Highway 8, Twizel. A duration until 2025 is sought.

CRC072118 - To take and use water at a maximum rate of 560 litres per second, and a maximum volume of 338,668 cubic metres per week and a maximum volume of 4,860,000 cubic metres per year from the Ohau B-C Canal, between, at, or about map references

NZMS260 H39: 842-492 and H39: 852-481, for the purpose of irrigating 810 hectares of rosehips, crops and pastures for sheep and beef stock, approximately 7 km south-east of State Highway 8, Twizel. A duration until 2025 is sought.

Applications CRC021750, CRC 072117 and CRC072118 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC021749 was publicly notified on the following dates:

- 6 December 2003 as part of the MfE call-in of all Waitaki consents.
- 4 August 2007 (with submissions closing 28 September 2007).

SIMONS HILL STATION LIMITED

Applicant: Simons Hill Station Limited

Address: C/- Aqualinc Research Limited, P O Box 20462, Bishopdale, Christchurch

CRC062842 - To take and use surface water at a maximum rate not exceeding 1,531 litres per second, and a volume not exceeding 132,280 cubic metres per day, and 14,400,000 cubic metres per year, from either Pukaki Canal at or about map reference NZMS 260: H38:805-641 or from Lake Pukaki at or about map reference NZMS 260: H38:822-649, for spray irrigation of up to 2,400 hectares of crops and pasture, for stock water and domestic purposes, at Simons Hill Station, State Highway 8, Lake Pukaki. A 35 year duration is sought.

CRC062843 - To discharge irrigation by-wash water to Pukaki River at a maximum rate not exceeding 1,531 litres per second, at or about map references NZMS 260 H38:874-563 and H38:880-540. A 35 year duration is sought.

CRC082304 - to take and use surface water from Tekapo Stilling Basin, between map references NZMS 260 H38:8820-7260 and H38:8845-7324, at a maximum rate of 1.398 cubic meters per second, with a volume not exceeding 14,581,330 cubic metres between 1 July and the following 30 June. Water will be used for irrigation of up to 2,400 hectares of pasture and crops for grazing stock, and for domestic and stockwater purposes, at Simons Hill Station, adjacent to State Highway 8, Lake Pukaki. This is an application for a new activity. The applicant has requested a duration of 17 years.

Applications CRC062842 and CRC062843 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC082304 was publicly notified on 18 October 2008 with submissions closing on 17 November 2008.

SIMONS PASS STATION LIMITED

Applicant: Simons Pass Station Limited

Address: C/- Aqualinc Research Limited, P O Box 20462, Bishopdale, Christchurch

CRC062867 - To take and use surface water at a maximum rate not exceeding 1,531 litres per second, and a volume not exceeding 132,280 cubic metres per day and 14,400,000 cubic metres per year, from either Pukaki Canal at or about map reference NZMS 260: H38:805-641 or; Lake Pukaki at or about map references NZMS 260: H38:822-649, for spray irrigation of up to 2,400 hectares of crops and pasture, for stock water and domestic purposes, at Simons Pass Station, State Highway 8, Lake Pukaki. A 35 year duration is sought.

CRC062869 - To discharge irrigation by-wash water to Pukaki River at a maximum rate not exceeding 1,531 litres per second, at or about map reference NZMS 260 H38:874-563. A 35 year duration is sought.

CRC082311 - to take and use surface water from Tekapo Stilling Basin, between map references NZMS 260 H38:8820-7260 and H38:8845-7324, at a maximum rate of 1.398 cubic meters per second, with a volume not exceeding 14,581,330 cubic meters between 1 July and the following 30 June. Water will be used for irrigation of up to 2,400 hectares of pasture and crops for grazing stock, and for domestic and stockwater purposes, at Simons Pass Station, adjacent to State Highway 8, Lake Pukaki. This is an application for a new activity. The applicant has requested a duration of 17 years.

Applications CRC062867 and CRC062869 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.

Application CRC082311 was publicly notified on 18 October 2008 with submissions closing 17 November 2008.

SOUTHDOWN HOLDINGS LIMITED

Applicant: Williamson Holdings Limited

Address: Aqualinc Research Limited, PO Box 20 462, Bishopdale, Christchurch

CRC040835 - To take water from Lake Ohau at a maximum rate not exceeding 1,200 litres per second, and a volume not exceeding 103,680 cubic metres per day, and 15,000,000 cubic metres between 1st July and the following 30th June, at or about map reference NZMS 260 H38:621-522 for spray irrigation of up to 2,500 hectares at Glen Eyrie Downs, Ohau Downs and Shelton Downs, Lake Ohau. A 35 year duration is sought.

CRC040836 - To construct, maintain and operate an irrigation pump station and intake on the bed of Lake Ohau, at or about map reference NZMS 260 H38:621-522, to pump water to Ohau Downs, Glen Eyrie Downs, and Shelton Downs, Lake Ohau.

To disturb the bed and banks of Maori Creek to construct and maintain a pipeline underneath Maori Creek, at or about map reference NZMS 260 H38:617-512. A 35 year duration is sought.

CRC041787 - To disturb the bed and banks of the Ahuriri River to install a pump station and intake structure, between map references NZMS 260 H39: 596-285 and H39: 599-288, at Killermont Station, State Highway 8, Omarama. A 35 year duration is sought.

CRC041788 - To take water from Ahuriri River at a maximum rate not exceeding 750 litres per second, and a volume not exceeding 64,800 cubic metres per day, and 6,600,000 cubic metres per year, at or about map reference NZMS 260 H39:598-287 for spray irrigation of up to 1,100 hectares of pasture and crops, stock water and domestic purposes at Killermont Station, State Highway 8, Omarama. A 35 year duration is sought.

CRC073112 - To disturb the bed of Ahuriri River to construct, operate and maintain an erosion control and discharge structure at or about map reference H39:547-283 at Omarama Lindis Pass Road, Omarama. A 35 year duration is sought.

CRC073113 - To disturb the bed and banks of Ahuriri River to construct a low level gravel bar to facilitate the diversion of water, a stopbank to protect the intake trench and filter structure and to undertake remedial work at the bank to restore bank stability if required, between map references H39:544-287 and H39:546-285 at Omarama Lindis Pass Road, Omarama. A 35 year duration is sought.

CRC073114 - To discharge water to Ahuriri River from a fish bypass and during emergency situations from a storage pond at a maximum rate not exceeding 950 litres per second, at or about map reference H39:547-283 at Omarama Lindis Pass Road, Omarama. A 35 year duration is sought.

CRC073115 - To divert water from Ahuriri River at a maximum rate not exceeding 950 litres per second at or about map reference NZMS 260 H39:545-285; to take and use water from a storage pond at a maximum rate not exceeding 750 litres per second and a volume not exceeding 6,600,000 cubic metres per year, at or about map reference NZMS 260 H39:545-284 for the spray irrigation of 1,100 hectares of pasture, and for stock water and domestic purposes at Killermont Station, Omarama Lindis Pass Road, Omarama. A duration of 35 years is sought.

Applications CRC040836, CRC041787, CRC041788, CRC073112, CRC073113, CRC073114 and CRC073115 were publicly notified on 4 August 2007 with submissions closing on 28 September 2007.

Application CRC040835 was publicly notified on the following dates;

- 6 December 2003 as part of the MfE call-in of all Waitaki consents
- 4 August 2007 (with submissions closing 28 September 2007)

TOTARA FARMING CO LIMITED

Applicant: Totara Farming Co Limited
Address: R J Hall Civil & Environmental Consulting Limited (Timaru)
PO Box 503, Timaru

CRC020584 - To divert surface water from Scrubby Creek into an irrigation race at a maximum rate not exceeding 50 litres per second, and a volume not exceeding 4,320 cubic metres per day, at or about map reference NZMS 260: H39:855-440, and

To take and use water at a maximum rate not exceeding 19 litres per second, and a volume not exceeding 1641.6 cubic metres per day, and a volume not exceeding 75,000 cubic metres per year, from an irrigation race, at or about map reference NZMS 260: H39:856-436 for spray irrigation of up to 34 hectares of pasture and winter feed crops at McAughtries Road, Twizel, west of Lake Benmore. A duration until 2025 is sought.

CRC031315 - To discharge unused water/surplus irrigation water into Camp Creek at a maximum rate not exceeding 50 litres per second, and a volume not exceeding 4,320 cubic metres per day, at McAughtries Road, Twizel, west of Lake Benmore, at or about map reference NZMS 260: H39:855-433. A duration until 2025 is sought.

Application CRC031315 was publicly notified on 4 August 2007 with submissions closing on 28 September 2007.

Application CRC020584 was publicly notified on the following dates:

- 6 December 2003 as part of the MfE call-in of all Waitaki consents.
- 4 August 2007 (with submission closing 28 September 2007).

TWIN PEAKS STATION LIMITED

Applicant: Twin Peaks Station Limited
Address: Irrigation Resource Solutions Ltd, PO Box 80, Lake Tekapo

CRC063564 - To divert, take and use up to 42 litres per second of water and a maximum volume of 25,402 cubic metres per week, and a maximum volume of 432,000 cubic metres per year from Manuka Creek, between, at, or about map references NZMS 260 H39:540-225 to H39:542-226, to supply water for irrigation of up to 72 hectares of pasture, winter fodder and lucerne crops at Twin Peaks Station, approximately 18 km south-west of Omarama. At time of higher flows, to divert and take for storage purposes up to 60 litres per second continuously. A duration until 2025 is sought.

CRC063565 - To disturb the bed of Manuka Creek, between, at, or about map references NZMS 260 H39:540-225 to H39:542-226, to allow for the construction and maintenance of an

intake structure at Twin Peaks Station, approximately 18 km south-west of Omarama. A duration until 2025 is sought

Applications CRC063564 and CRC063565 were publicly notified on 4 August 2007 with submissions closing on 28 September 2007.

WAITANGI STATION LIMITED

Applicant: Waitangi Station Limited

Address: Irrigation Resource Solutions Ltd, PO Box 80, Lake Tekapo

CRC030944 - To divert, take and use up to 34,560 cubic metres of water per eight consecutive day period at a maximum rate of 55 litres per second, and at a maximum volume of 330,000 cubic metres per year, from Sutton Stream, at or about map reference NZMS 260 I39:9674-2157, approximately 1,100 metres north-east of the Waitangi Station homestead, Lake Aviemore, of which 40 litres per second will be used to irrigate up to 55 hectares of pasture and 15 litres per second will be used for stockwater; and

- to divert, take and use up to 48,816 cubic metres of water per 19 consecutive day period at a maximum rate of 55 litres per second and at a maximum volume of 300,000 cubic metres per year, from Gibson Stream, at or about map reference NZMS 260 I39:9608-2103, approximately 800 metres north east of the Waitangi Station homestead, Lake Aviemore, of which 40 litres per second will be used to irrigate up to 23 hectares of pasture and 15 litres per second will be used for stockwater; and

- to take and use up to 21,168 cubic metres of water per seven consecutive day period at a maximum rate of 35 litres per second and at a volume not exceeding 300,000 cubic metres per year, from Lake Aviemore, at or about map reference NZMS 260 I40:0037-1369, approximately 60 metres upstream of the Aviemore Dam, adjacent to Te Akatarawa Road, Lake Aviemore, of which 30 litres per second will be used to irrigate up to 50 hectares of pasture and five litres per second will be used for stockwater. A 35 year duration is sought.

CRC031013 - To disturb the bed of Sutton Stream to allow for the reconstruction of an intake structure, at or about map reference NZMS 260 I39:9674-2157, approximately 1,100 metres north-east of the Waitangi Station homestead, Lake Aviemore; to disturb the bed of Gibson Stream to allow for the reconstruction of an intake structure, at or about map reference NZMS 260 I39:9608-2103, approximately 800 metres north east of Waitangi Station homestead, Lake Aviemore. A 35 year duration is sought.

CRC031014 - To discharge up to 34,560 cubic metres of water per eight consecutive day period at a maximum rate of 55 litres per second, into Lake Aviemore, adjacent to Te Akatarawa Road, at or about map reference NZMS 260 I40:9687-1954. The water to be discharged is excess irrigation water and stockwater taken from Sutton Stream; and

To discharge up to 48,816 cubic metres of water per 19 consecutive day period at a maximum rate of 55 litres per second, into Sutton Stream, adjacent to Te Akatarawa Road, at or about map reference NZMS 260 I40:9595-1948. The water to be discharged is excess irrigation and stockwater from Gibson Stream. A 35 year duration is sought.

Application CRC030944 was publicly notified on the following dates:

- 28 May 2003 (with submissions closing 26 June 2003).
- 6 December 2003 as part of the MfE call-in of all Waitaki consents
- 4 August 2007 (with submissions closing 28 September 2007)

Applications CRC031013 and CRC031014 were publicly notified on 4 August 2007 with submissions closing 28 September 2007.
