## MEMORANDUM

**FROM :** DONALD FRASER

**TO :** COMMISSIONERS SKELTON, BOWDEN AND RYDER  
CC

**SUBJECT :** ADDENDUM TO DECISION - CRC042124 D D AND V J CHALMERS

The decision on the above applications was issued on 5 May 2010.

Subsequent to that, an issue of clarification has been sought on the wording of Condition 3(a) on each of the consents granted by Commissioners Skelton, Bowden and Ryder.

The current wording of Condition 3 states as follows:

“Whenever the flow expressed in cubic metres per second in the Waitaki River, as estimated by the Canterbury Regional Council based on the daily mean flow for the previous day at the Kurow recorder site map reference NZMS 260 140:079-088:

(a) is equal or greater than 152 cumecs.....”

It has been identified that 152 cumecs is a typographical error and requires correction to state 175.5 cumecs.

Section 133A Resource Management Act allows a consent authority that grants a consent to issue an amended consent that corrects minor errors or defects in the consent.
