## Map of landscape and ecological values on Simons Hill

The Map below shows the plan of the ecological and landscape values identified by the Department of Conservation for Simons Hill during tenure review. This should be inserted into Ms Maturin's evidence at paragraph 103 and is to be compared with the final Designation Plan shown in Figure 7 of the evidence. The small map shown in figure 7 is also reproduced below, in larger format.

Final Designation Plan for Simons Hill 2005
