

**Before the commissioners appointed by the  
Canterbury Regional Council**

**In the matter of**      The Resource Management Act  
1991

**and**

**In the matter of**      60 water permit applications to  
take and use water, 29 land use  
consent applications and 21  
discharge permit applications, for  
agricultural and horticultural  
activities in the upper Waitaki  
catchment

Section 42A Report

Date of hearing: September 2009 – February 2010

Clarification of the Relationship between Original and Addendum s42A  
Reports – Susannah Vesey

## **INTRODUCTION**

1. The following table (Table 1) sets out the relationship between the matters considered in my original s42A report and those of which I make comment on in my Addendum report. Given the number of original s42A reports I prepared, it should be noted that I have not referenced every paragraph of every report – rather I have pulled out key points from my original reports and matters addressed in my addendum.
2. This information is provided to the commissioners to enable an improved understanding of the original audit issues that remain unresolved, or that have been addressed in Addendum evidence.
3. The issues highlighted in **bold** (in Table 1) indicate those which remain unresolved.

**Table 1 Relationship between Original and Addendum s42A Reports**

Original s42A report number	Original s42A report paragraph number	Issue	Status
1 (Introductory) 16 (Graham, water permit)	Appendix 6	Generic condition sets	Superseded in addendum report
	34	Derogation approval	Has since been provided - no longer outstanding
	52-59	Effects on ecosystems	Note the applicant has not yet provided copies of existing fish screen details.
	<b>60-66</b>	<b>Effects on water quality</b>	<b>Superseded in addendum report</b>
	<b>67-70</b>	<b>Tangata whenua values</b>	<b>Unable to make recommendation on this matter</b>
	91-93	Recommendation	Superseded in addendum report
	Table 4	Recommended conditions	Provides basis for conditions discussion in addendum report
18A (Haldon Station, water permit)	Attachment 1	Map of proposal	Background information – no outstanding issues
	75-58	Fish screen	Minimal additional information provided. Submission from Mr Webb. Superseded in addendum report.
	83-87	Efficiency – annual volume	Takes into account border dyke irrigation
	119	Policy 28	Consideration against matters raised in Policy 28 for replacement consents.
	<b>97-105</b>	<b>Water quality</b>	<b>Superseded in addendum report</b>
	<b>106-109</b>	<b>Tangata whenua values</b>	<b>Unable to make recommendation on this matter</b>
	128-130	Recommendation	Superseded in addendum report
18D (Haldon Station, discharge permit)	Table 5	Recommended conditions	Provides basis for conditions discussion in addendum report
	Attachment 1	Map of proposal	Background information – no outstanding issues
	<b>23-28</b>	<b>Water quality</b>	<b>Superseded in addendum report</b>
	<b>Table 2</b>	<b>Tangata whenua values</b>	<b>Unable to make recommendation on this matter</b>
18E (Haldon Station, water permit)	46-48	Recommendation	No change from that made in original report
	Table 3	Recommended conditions	Provides basis for conditions discussion in addendum report
	28	Derogation approval	Has since been provided – no longer outstanding
	<b>37-44</b>	<b>Water quality</b>	<b>Superseded in addendum report</b>
	<b>45-51</b>	<b>Landscape effects</b>	<b>Superseded in addendum report</b>
20A (Hope, water	<b>57-60</b>	<b>Tangata whenua values</b>	<b>Unable to make recommendation on this matter</b>
	77-79	Recommendation	Superseded in addendum report
	54	Derogation approval	Has since been provided – no

permit)			longer outstanding
	72-82	Effects on ecosystems	Superseded in addendum report
	<b>89-95</b>	<b>Effects on landscape values</b>	<b>No detailed assessment provided by applicant, superseded in addendum report</b>
	<b>96-101</b>	<b>Water quality</b>	<b>Superseded in addendum report</b>
	<b>102-104</b>	<b>Tangata whenua values</b>	<b>Unable to make recommendation on this matter</b>
	136-140	Recommendation	Superseded in addendum report
	Table 4	Recommended conditions	Provides basis for conditions discussion in addendum report
Attachment 1	Map of proposal	Background information – no outstanding issues	
20B (Hope, water permit)	28	Derogation approval	Has since been provided – no longer outstanding
	33-41	Effects on ecosystems	Superseded in addendum report
	<b>47-53</b>	<b>Effects on landscape values</b>	<b>No detailed assessment provided by applicant, superseded in addendum report</b>
	<b>54-60</b>	<b>Water quality</b>	<b>Superseded in addendum report</b>
	<b>61-63</b>	<b>Tangata whenua values</b>	<b>Unable to make recommendation on this matter</b>
	94-97	Recommendation	Superseded in addendum report
	Table 4	Recommended conditions	Provides basis for conditions discussion in addendum report
20C (Hope, discharge permit)	Table 2	Recommended conditions	Provides basis for conditions discussion in addendum report
35B (Southdown Holdings, water permits)	68	Derogation approval	Has since been provided – no longer outstanding
	96-100	Effects on ecosystems	Superseded in addendum report
	101-108	Other users	Superseded in addendum report
	<b>111-116</b>	<b>Effects on landscape values</b>	<b>Superseded in addendum report</b>
	<b>119-123</b>	<b>Water quality</b>	<b>Superseded in addendum report</b>
	124-126	<b>Tangata whenua values</b>	<b>Unable to make recommendation on this matter</b>
	149	S217(2) RMA	Proposed change in intake means this is no longer applicable. Discussed further in addendum report
	150-153	Recommendation	Superseded in addendum report
	Tables 3 and 4	Recommended conditions	Provides basis for conditions discussion in addendum report
	Attachment 1	Map of proposal	Background information – no outstanding issues
35C (Southdown Holdings, works in river bed)	44-47	Effects on ecosystems	Superseded in addendum report
	48-51	Effects on amenity	Superseded in addendum report
	72-74	Recommendation	Superseded in addendum report
	Table 2	Recommended conditions	Provides basis for conditions discussion in addendum report
36A (Totara Farming, water permit)	36	Derogation approval	Has since been provided – no longer outstanding
	<b>55-63</b>	<b>Efficiency of diversion</b>	<b>Superseded in addendum report</b>

	<b>67-71</b>	<b>Effects on landscape values</b>	<b>Superseded in addendum report</b>
	<b>72-76</b>	<b>Water quality</b>	<b>Superseded in addendum report</b>
	<b>77-80</b>	<b>Tangata whenua values</b>	<b>Unable to make recommendation on this matter</b>
	102-105	Recommendation	Superseded in addendum report
	Table 3	Recommended conditions	Provides basis for conditions discussion in addendum report
	Attachment 1	Map of proposal	Background information – no outstanding issues
36B (Totara Farming, discharge permit)	<b>Table 1</b>	<b>Tangata whenua values</b>	<b>Unable to make recommendation on this matter</b>
	Table 2	Recommended conditions	Provides basis for conditions discussion in addendum report
	35-38	Recommendation	Superseded in addendum report
38A (Waitangi Station, water permit)	63	Derogation approval	Has since been provided – no longer outstanding
	96	Stock water volume (efficiency)	Superseded in addendum report
	99-103	Effects on ecosystems	Superseded in addendum report
	109-120	Landscape values	Superseded in addendum report
	<b>121-126</b>	<b>Water quality</b>	<b>Superseded in addendum report</b>
	<b>127-130</b>	<b>Tangata whenua values</b>	<b>Unable to make recommendation on this matter</b>
	154-156	Recommendation	Superseded in addendum report
	157	Recommendation water permit be issued as three separate documents	Background information – no outstanding issues
	158	Amount to include in allocation	Stockwater plus irrigation. Background information – no outstanding issues
	Tables 5-7	Recommended conditions	Provides basis for conditions discussion in addendum report
	Attachment 1	Maps of proposal	Background information – no outstanding issues
