

Erosion and Sediment control Guidelines

Feedback form

We will be regularly reviewing this guideline. Please help us keep it accurate and practical – let us know about any changes we need to make by using this form.

1. Errors

Are there any errors in the text or diagrams? If so, please tell us:

- which page and/or figure number it is on
- what the error is and how you would correct it

2. Omissions

Have we left out any measures/practices in common use or which you find useful? If so, please list them below and, if possible, any design guidelines for us to include:

3. Effectiveness

Is this guideline helpful for complying with erosion and sediment control requirements? If not, please tell us how we can improve it:

4. Other comments

Do you have any other comments or questions? If so, please note them below:

5. Your contact details (optional)

Please note your name, email address and daytime phone number below in case we need to discuss your suggestions in more detail:

Name: _____ Organisation: _____

Phone: _____ Email: _____

Thank you for taking the time to improve our guidelines.

How to pass on your views:
