

It's time to prepare for..

SCIENCE FAIR

Your local Science and Technology Fair is in **Sept 2009** So you need to get started **NOW!**

Lincoln University
Canterbury-Westland
Schools' Science and
Technology Fair
Christchurch

Sanford Science and
Technology Fair
Timaru

Wrybill Trophy

The prize winners from each category have the opportunity to be awarded Environment Canterbury's prestigious Wrybill Trophy.

The fair celebrates excellence in science and technology.

Exhibits are judged by a panel of experts from industry, research organisations, universities and schools.

The Environment Canterbury School Awards are up for grabs. We can help you to get started on a sustainable management project.

Sustainable resource management is all about the way we use and look after our natural and physical resources! (eg air, land and water).

The Environment Canterbury School Awards category is all about celebrating that.

All Fair entries with an environmental theme will automatically be judged for this award. The judges would like to see inventive solutions to environmental problems.

Environment Canterbury PRIZES

JUNIOR (yr 7-8)
SENIOR (yr 9-13)

1st: \$400

2nd: \$150

3rd: \$80

\$1000 goes to the school of the winning exhibit for each category!

Teachers!

Would you like an Environment Canterbury Educator to help inspire your class with an introductory lesson or would you like to receive an information folder, please contact:
