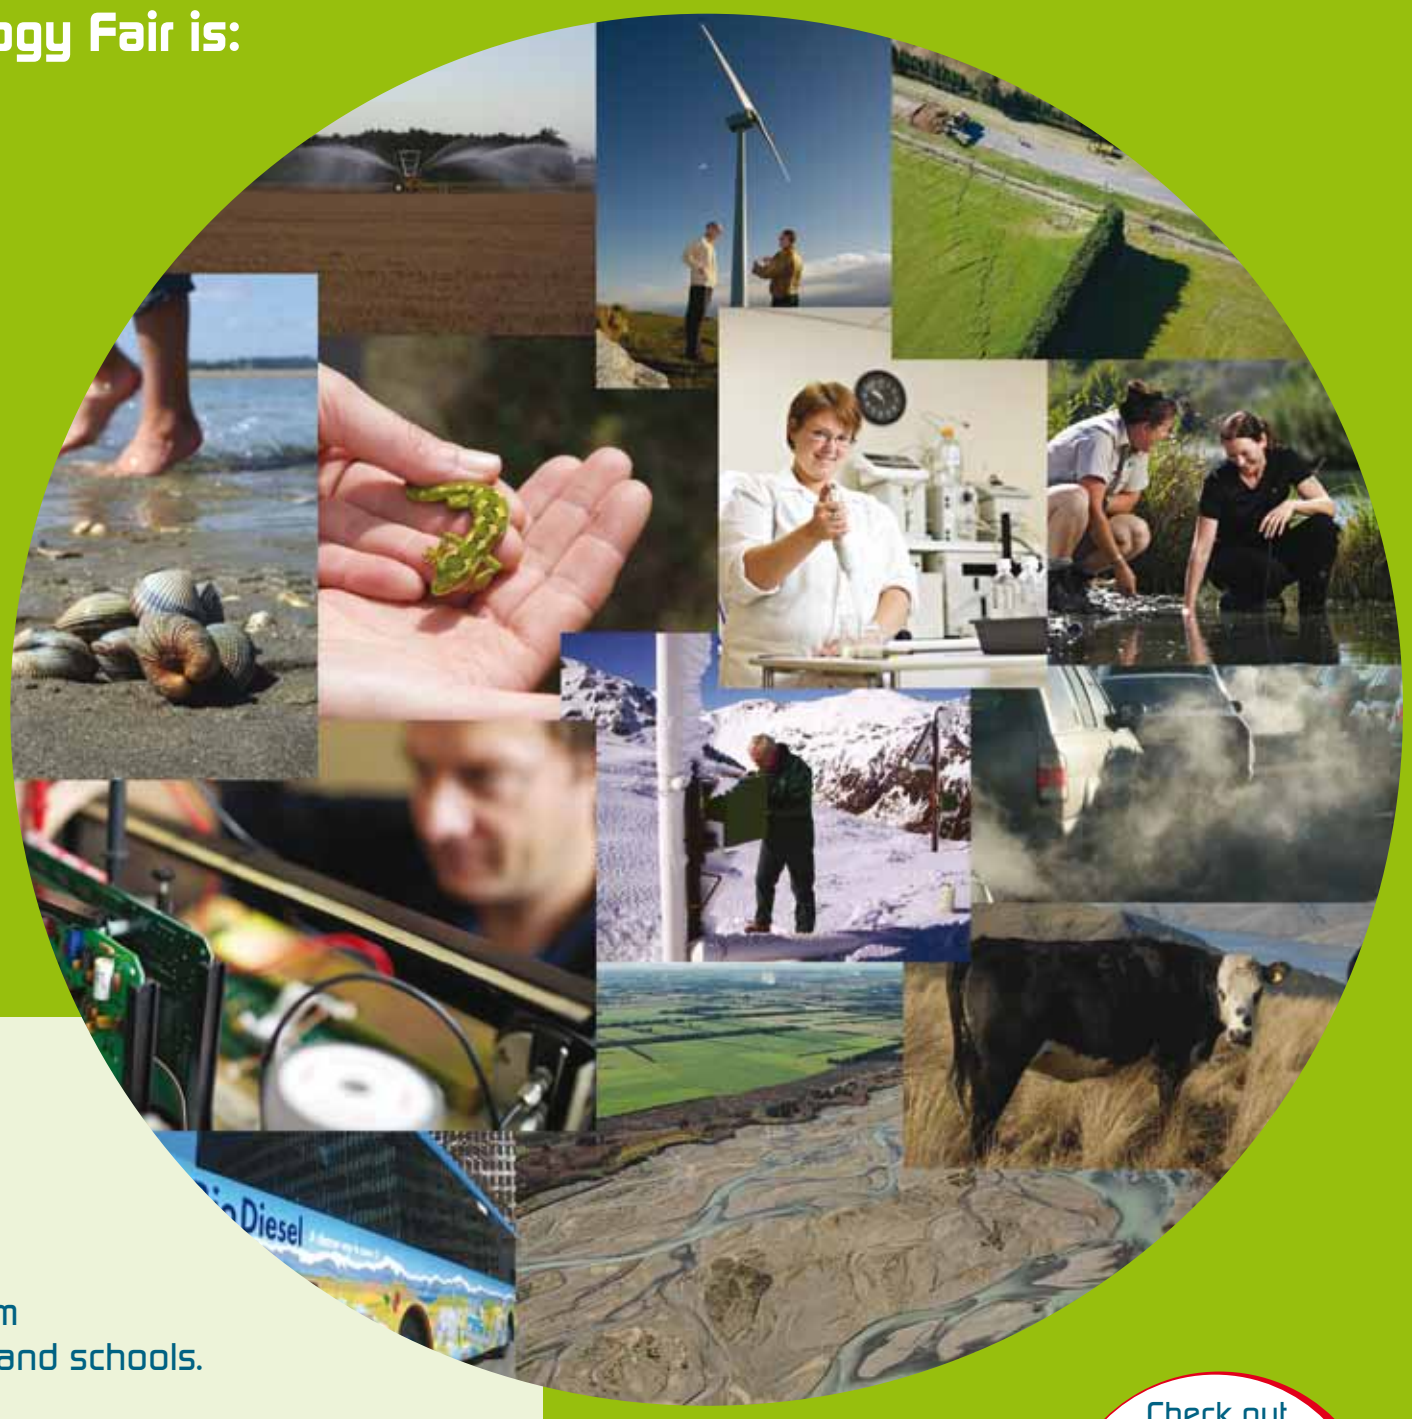
OPEN DOORS TO YOUR FUTURE 2011

Your local Science and Technology Fair is:

Canterbury-Westland Schools'
Science and Technology Fair
Christchurch 11-12 September 2011

Sanford Science and Technology Fair
Timaru 7-8 September 2011



Environment Canterbury
PRIZES
SENIOR (yr 9-13)

1st: $400
2nd: $150
3rd: $80

$500 goes to the school of the winning exhibit for each category!

The fairs celebrate excellence in science and technology.

Exhibits are judged by a panel of experts from industry, research organisations, universities and schools. Prizes include tertiary study scholarships.

The Environment Canterbury School Awards are up for grabs. We can help you to get started on a sustainable resource management project.

Sustainable resource management is all about the way we use and look after our natural and physical resources! (eg air, land and water).

The Environment Canterbury School Awards category is all about celebrating that. Your research could open doors to a great future.

All Fair entries with an environmental theme will automatically be judged for this award. The judges would like to see inventive solutions to environmental problems in our region.
