Chapter 3 Air quality (AQL) 3 – 1

3.1 Introduction 3 – 1

3.1.1	Air quality issues	3 - 1
3.1.2	Localised air quality issues	3 - 1
3.1.3	Ambient air quality issues	3 - 2
3.1.4	Global air quality issues	3 - 4

3.2 Issue resolution (issues, objectives, policies, methods) 3 – 5

Issue AQL1 Localised air quality issues 3 - 7

Objective AQL1 Objective for localised air quality 3 - 7

Policy AQL1 Prohibit combustion of specified materials 3 - 8

Method AQL1(a)	Information and promotion	3 - 9
Method AQL1(b)	Canterbury Hazardous Waste Management Strategy	3 - 10
Method AQL1(c)	Regional rules	3 - 10
Method AQL1(d)	Compliance and enforcement	3 - 10
Method AQL1(e)	Response to complaints and enquiries	3 - 10

Policy AQL2 Control particulate and odour emissions

from fuel burning devices 3 - 10

Method AQL2(a)	Promotion and education	3 - 11
Method AQL2(b)	Regional rules	3 - 11
Method AQL2(c)	Resource consents	3 - 11
Method AQL2(d)	Compliance and enforcement	3 - 11
Method AQL2(e)	Response to complaints and enquiries	3 - 11
Method AQL2(f)	Assessment criteria	3 - 12

Policy AQL3 Promote measures to address motor vehicle exhaust emissions 3 - 12

Method AQL3(a)	Advocacy	3 - 12
Method AQL3(b)	Information and promotion	3 - 13
Method AQL3(c)	Investigation	3 - 13
Method AQL3(d)	Regional Land Transport Strategy	3 - 13
Method AQL3(e)	Territorial authorities	3 - 13

Policy AQL4 Restrict outdoor burning 3 - 14

Method AQL4(a)	Advocacy	3 - 16
Method AQL4(b)	Promotion and education	3 - 16
Method AQL4(c)	Investigation	3 - 16
Method AQL4(d)	Canterbury Hazardous Waste Management Strategy	3 - 16
Method AQL4(e)	Regional rules	3 - 16
Method AQL4(f)	Resource consents	3 - 16
Method AQL4(g)	Compliance and enforcement	3 - 16
Method AQL4(h)	Response to complaints and enquiries	3 - 17
Method AQL4(i)	Assessment criteria	3 - 17

Policy AQL5	Avoid odour nuisance	3 – 17
Method AQL5(a)	Information and promotion	3 - 18
Method AQL5(b)	Regional rules	3 - 19
Method AQL5(c)	Resource consents	3 - 19
Method AQL5(d)	Compliance and enforcement	3 - 19
Method AQL5(e)	Response to complaints and enquiries	3 - 19
Method AQL5(f)	Assessment criteria	3 - 19
Policy AQL6: Avoid dust nuisance		3 - 20
Method AQL6(a)	Information and promotion	3 - 20
Method AQL6(b)	Regional rules	3 - 20
Method AQL6(c)	Resource consents	3 - 21
Method AQL6(d)	Compliance and enforcement	3 - 21
Method AQL6(e)	Response to complaints and enquiries	3 - 21
Method AQL6(f)	Assessment criteria	3 - 21
Method AQL6(g)	Territorial authorities	3 - 21
Policy AQL7: Avoid agrichemical spray drift		3 – 22
Method AQL7(a)	Advocacy	3 – 23
Method AQL7(b)	Information and promotion	3 – 23
Method AQL7(c)	Regional rules	3 – 24
Method AQL7(d)	Resource consents	3 – 24
Method AQL7(e)	Compliance and enforcement	3 – 24
Method AQL7(f)	Response to complaints and enquiries	3 – 24
Method AQL7(g)	Territorial authorities	3 – 24
Policy AQL8: Control all other discharges to air		3 – 25
Method AQL8(a)	Regional rules	3 – 25
Method AQL8(b)	Resource consents	3 – 25
Method AQL8(c)	Compliance and enforcement	3 – 26
Method AQL8(d)	Response to complaints and enquires	3 – 26
Issue AQL2	Ambient air quality issues	3 – 26
Objective AQL2	Objectives for ambient air quality in Canterbury	3 – 27
Policy AQL9	Applying Regional Ambient Air Quality Targets (RAAQT)	3 – 30
Method AQL9(a)	Investigation and Implementation	3 – 31
Method AQL9(b)	Regional rules	3 – 31
Method AQL9(c)	Resource consents	3 – 31
Method AQL9(d)	Compliance and enforcement	3 – 32
Method AQL9(e)	Response to complaints and enquiries	3 – 32
Policy AQL10: Precautionary principle approach to hazardous air pollutants		3 – 32
Method AQL10(a)	Investigation	3 – 33
Method AQL10(b)	Regional rules	3 – 33
Method AQL10(c)	Resource consents	3 – 33
Method AQL10(d)	Compliance and enforcement	3 – 33

Policy AQL11: Set emission standards for enclosed burners	3 – 33
Method AQL11(a) Information and promotion	3 – 34
Method AQL11(b) Regional rules	3 – 34
Method AQL11(c) Resource consents	3 – 34
Method AQL11(d) Continue to use the provisions of Section 369(11)(b) of the RMA to prohibit or authorise small scale fuel burning devices	3 – 34
Method AQL11(e) Compliance and enforcement	3 – 34
Policy AQL12: Set emission standards for large scale fuel burning devices	3 – 35
Method AQL12(a) Information and promotion	3 – 35
Method AQL12(b) Regional rules	3 – 35
Method AQL12(c) Resource consents	3 – 35
Method AQL12(d) Compliance and enforcement	3 – 36
Objective AQL3 Objective for ambient air quality in Christchurch	3 – 35
Policy AQL13 Permit replacement of existing solid fuel burners only	3 – 38
Method AQL13(a) Information and promotion	3 – 38
Method AQL13(b) Financial incentives and assistance	3 – 38
Method AQL13(c) Regional Energy Strategy	3 – 39
Method AQL13(d) Regional rules	3 – 39
Method AQL13(e) Compliance and enforcement	3 – 39
Policy AQL14: Prohibit open fires	3 – 40
Method AQL14(a) Information and promotion	3 – 41
Method AQL14(b) Financial incentives and assistance	3 – 41
Method AQL14(c) Regional Energy Strategy	3 – 41
Method AQL14(d) Regional rules	3 – 41
Method AQL14(e) Compliance and enforcement	3 – 41
Method AQL14(f) Territorial authorities	3 – 42
Policy AQL15 Phase out older style enclosed burners in the Christchurch Clean Air Zone 1	3 – 42
Method AQL15(a) Information and promotion	3 – 43
Method AQL15(b) Financial incentives and assistance	3 – 43
Method AQL15(c) Regional Energy Strategy	3 – 43
Method AQL15(d) Regional rules	3 – 43
Method AQL15(e) Compliance and enforcement	3 – 43
Policy AQL16 Reduce the number of small scale solid fuel burners in the Christchurch Clean Air Zones 1 and 2	3 – 44
Method AQL16(a) Information and promotion	3 – 45
Method AQL16(b) Financial incentives and assistance	3 – 45
Method AQL16(c) Regional Energy Strategy	3 – 45
Policy AQL17 Provide exemptions for heritage buildings or in emergency situations in the Christchurch Clean Air Zone 1	3 – 46
Method AQL17(a) Regional rules	3 – 47
Method AQL17(b) Compliance and enforcement	3 – 47
Policy AQL18 Mitigate adverse financial, social and health effects of clean air policies in the Christchurch Clean Air Zone 1	3 – 47
Method AQL18(a) Financial incentives and assistance	3 – 48
Method AQL18(b) Regional Energy Strategy	3 – 48

Policy AQL19 Prevent significant increases in PM₁₀ emissions from large scale fuel burning devices in the Christchurch Clean Air Zones 1 and 2 **3 – 49**

Method AQL19(a)	Information and promotion	3 – 49
Method AQL19(b)	Regional rules	3 – 49
Method AQL19(c)	Resource consents	3 – 49
Method AQL19(d)	Compliance and enforcement	3 – 50
Method AQL19(e)	Response to complaints	3 – 50

Policy AQL20 Promote measures to address discharges to air from motor vehicles in the Christchurch Clean Air Zones 1 and 2 **3 – 50**

Method AQL20(a)	Advocacy	3 – 51
Method AQL20(b)	Information and promotion	3 – 52
Method AQL20(c)	Investigation	3 – 52
Method AQL20(d)	Regional Land Transport Strategy	3 – 52
Method AQL20(e)	Non-Statutory Strategies	3 – 52
Method AQL20(f)	Regional Energy Strategy	3 – 52
Method AQL20(g)	Territorial authorities	3 – 52

Policy AQL21: Restrict discharges to air from outdoor burning in the Christchurch Clean Air Zones 1 and 2 **3 – 53**

Method AQL21(a)	Information and promotion	3 – 54
Method AQL21(b)	Regional rules	3 – 54
Method AQL21(c)	Resource consents	3 – 54
Method AQL21(d)	Compliance and enforcement	3 – 54
Method AQL21(e)	Response to complaints and enquiries	3 – 54

3.3 Regional Rules **3 – 55**

3.3.1 Discharges to air from small scale fuel burning devices **3 – 62**

Rule AQL1	Enclosed burners or open fires anywhere in Canterbury installed before 1 January 2004 – permitted activity	3 – 62
Rule AQL2	Enclosed burners meeting specific criteria anywhere in Canterbury – permitted activity	3 – 63
Rule AQL3	Oil or gas burning heating devices anywhere in Canterbury – permitted activity	3 – 65
Rule AQL4	Enclosed burners, oil or gas burning heating devices or open fires anywhere in Canterbury not complying with Rules AQL1, AQL2, AQL3 or AQL8 that are not otherwise prohibited – non-complying activity	3 – 66
Rule AQL5	Fuels prohibited from use in small scale fuel burning devices anywhere in Canterbury – prohibited activity for which no resource consent shall be granted	3 – 67
Rule AQL6	Nuisance provisions relating to small scale fuel burning devices anywhere in Canterbury – prohibited activity for which no resource consent shall be granted	3 – 68
Rule AQL7	Open fires in the Christchurch Clean Air Zone 1 and 2 not installed on or before 1 June 2002 – prohibited activity for which no resource consent shall be granted	3 – 68
Rule AQL8	Enclosed burners or open fires contained within heritage buildings in the Christchurch Clean Air Zone 1 – permitted activity	3 – 69
Rule AQL9	Small scale fuel burning devices contained in new dwellings or buildings; dwellings or buildings that currently do not have small scale solid fuel burning devices; and extensions and alterations to dwellings or buildings that currently do not have small scale solid fuel burning devices in the Christchurch Clean Air Zone 1 – prohibited activity for which no resource consent shall be granted	3 – 70
Rule AQL10	Open fires from 1 January 2006 in the Christchurch Clean Air Zone 1 – prohibited activity for which no resource consent shall be granted	3 – 70
Rule AQL11	Non-complying enclosed burners older than 15 years from 1 January 2008 in the Christchurch Clean Air Zone 1 – prohibited activity for which no resource consent shall be granted	3 – 71

3.3.2 Discharges to air from large scale fuel burning devices 3 – 72

Rule AQL12	Fuels prohibited from use in large scale fuel burning devices anywhere in Canterbury – prohibited activity for which no resource consent shall be granted	3 - 72
Rule AQL12A	Fuels used in large scale fuel burning devices anywhere in Canterbury – non-complying activity	3 - 73
Rule AQL12B	Discharge to air from mobile sources– permitted activity	3 – 73
Rule AQL13	External combustion of gas 5 MW or less in the Christchurch Clean Air Zones 1 and 2 – permitted activity	3 – 74
Rule AQL14	External combustion of diesel or kerosene 100 kW or less in the Christchurch Clean Air Zones 1 and 2 – permitted activity	3 – 75
Rule AQL15	Internal combustion diesel, petrol or gas 300 kW or less in the Christchurch Clean Air Zones 1 and 2 – permitted activity	3 – 76 3 – 78
Rule AQL16	External combustion of diesel and kerosene greater than 100 kW to 2 MW or less, gas greater than 5MW to 20 MW or less and internal combustion of diesel, petrol or gas greater than 300 kW in the Christchurch Clean Air Zones 1 and 2 – controlled activity	
Rule AQL17	Large scale fuel burning devices burning gas or oil not classed as permitted or controlled in the Christchurch Clean Air Zones 1 and 2 – discretionary activity	3 – 80
Rule AQL18	Large scale fuel burning devices burning solid fuel with a combined heat output 1 MW or less in the Christchurch Clean Air Zones 1 and 2 – discretionary activity	3 – 81
Rule AQL19	Large scale fuel burning devices burning solid fuel with a combined heat output greater than 1 MW in the Christchurch Clean Air Zones 1 and 2 – discretionary activity	3 – 82
Rule AQL20	Large scale fuel burning devices burning solid fuel 1 MW or less with total suspended particulate (TSP) emissions greater than 250 mg/m ³ in the Christchurch Clean Air Zones 1 and 2 – prohibited activity for which no resource consent shall be granted	3 – 83
Rule AQL21	Large scale fuel burning devices burning solid fuel greater than 1 MW with total suspended particulate (TSP) emissions greater than 250 mg/m ³ in the Christchurch Clean Air Zones 1 and 2 – prohibited activity for which no resource consent shall be granted	3 – 83
Rule AQL22	External combustion of gas 5 MW or less outside of the Christchurch Clean Air Zones 1 and 2 – permitted activity	3 – 84
Rule AQL23	External combustion of diesel or kerosene 2 MW or less outside of the Christchurch Clean Air Zones 1 and 2 – permitted activity	3 – 85
Rule AQL24	External combustion of solid fuel or light fuel oil 1 MW or less outside of the Christchurch Clean Air Zones 1 and 2 – permitted activity	3 – 87
Rule AQL25	Internal combustion of diesel, petrol or gas 300 kW or less outside of the Christchurch Clean Air Zones 1 and 2 – permitted activity	3 – 89
Rule AQL26	External combustion of diesel or kerosene greater than 2 MW to 5 MW or less, gas greater than 5 MW to 20 MW or less, internal combustion of diesel, petrol or gas greater than 300 kW, and external combustion of solid fuel or light fuel oil greater than 1 MW to 3 MW or less outside of the Christchurch Clean Air Zones 1 and 2 – controlled activity	3 – 90
Rule AQL27	Large scale fuel burning devices not permitted or controlled outside the Christchurch Clean Air Zones 1 and 2 – discretionary activity	3 – 92

3.3.3 Discharges to air from outdoor burning 3 – 93

Rule AQL28	Outdoor burning of standing crop residue or vegetative stubble – permitted activity	3 – 93
Rule AQL29	Outdoor burning of vegetation, paper, cardboard and untreated wood – permitted activity	3 – 93
Rule AQL30	Outdoor burning of polyethylene agricultural wrap – permitted activity	3 – 94
Rule AQL31	Outdoor burning of polyethylene agricultural or animal remedy containers – permitted activity	3 – 95
Rule AQL32	Outdoor burning of animal carcasses and offal – permitted activity	3 – 96
Rule AQL33	Outdoor burning for fire fighting research and fire fighting training purposes – permitted activity	3 – 97
Rule AQL34	Outdoor burning not permitted by Rules AQL28 to AQL35 – discretionary activity	3 – 97
Rule AQL35	Outdoor burning in winter in the Christchurch Clean Air Zones 1 and 2 – non-complying activity	3 – 98
Rule AQL36	Outdoor burning of specified waste – prohibited activity for which no resource consent shall be granted	3 – 98
Rule AQL37	Outdoor burning of any materials within a landfill site, waste transfer station or waste recovery area – prohibited activity for which no resource consent shall be granted	3 – 99

3.3.4 Discharges to air from industrial or trade premises and industrial or trade processes 3 - 100

Rule AQL38	Fugitive dust emissions from unconsolidated surfaces – permitted activity	3 – 100
Rule AQL39	Petroleum storage and transfer facilities – permitted activity	3 – 100
Rule AQL40	Dry cleaning – permitted activity	3 – 100
Rule AQL41	Metal work processes – permitted activity	3 – 101
Rule AQL42	Bulk materials – permitted activity	3 – 102
Rule AQL43	Seed cleaning – permitted activity	3 – 102
Rule AQL44	Clay firing – permitted activity	3 – 103
Rule AQL45	Laboratory fume cupboards in educational institutions – permitted activity	3 – 103
Rule AQL46	Commercial laboratory fume cupboards – permitted activity	3 – 104
Rule AQL47	Wood waste generating processes – permitted activity	3 – 105
Rule AQL48	Discharges of heat, steam or water vapour – permitted activity	3 – 105
Rule AQL49	Food or animal product cooking and processing – permitted activity	3 – 106
Rule AQL50	Fumigation – permitted activity	3 – 106
Rule AQL51	Water blasting – permitted activity	3 – 107
Rule AQL52	Dry or wet abrasive blasting within an enclosed booth – permitted activity	3 – 108
Rule AQL53	Small scale spray coating not within a spray booth – permitted activity	3 – 109
Rule AQL54	Small scale spray coating within a spray booth – permitted activity	3 – 110
Rule AQL55	Printing processes using water-based inks – permitted activity	3 – 111
Rule AQL56	Workplace ventilation – permitted activity	3 – 112
Rule AQL57	Industrial or trade premises and processes not complying with Rules AQL38 to AQL56 or not otherwise identified – discretionary activity	3 – 113

3.3.5 Discharges to air from intensive farming 3 – 115

Rule AQL58	Intensive farming established on or before 1 June 2002 – permitted activity	3 – 115
Rule AQL59	Intensive layer poultry farming established after 1 June 2002 or not established on or before 1 June 2002 – permitted activity	3 – 115
Rule AQL60	Intensive broiler and breeder poultry farming established after 1 June 2002 or not lawfully established on or before 1 June 2002 – permitted activity	3 – 116
Rule AQL61	Intensive pig farming established after the date of notification of the Proposed NRRP or not lawfully established before the date of notification of the Proposed NRRP – controlled activity	3 – 116
Rule AQL62	Intensive farming not complying with Rules AQL58 to AQL60 – discretionary activity	3 – 118

3.3.6 Discharges to air from waste management processes 3 – 119

Rule AQL63	Waste management processes established on or before 1 June 2002 – permitted activity	3 – 119
Rule AQL64	Application of pig effluent to land on the same property from where the pig effluent originates established after the date of notification of the Proposed NRRP or not lawfully established before the date of notification of the Proposed NRRP – permitted activity	3 – 119
Rule AQL65	Application of effluent to land other than provided for in Rules AQL63 – permitted activity	3 – 121
Rule AQL66	Small scale human sewage treatment and disposal established after 1 June 2002 or not lawfully established on or before 1 June 2002 – permitted activity	3 – 122
Rule AQL67	Offal pits established after 1 June 2002 or not established on or before 1 June 2002 – permitted activity	3 – 123
Rule AQL68	Composting established after the date of notification of the Proposed NRRP or not lawfully established before the date of notification of the Proposed NRRP – permitted activity	3 – 123
Rule AQL69	Waste management processes not permitted in Rules AQL63 to AQL67 – discretionary activity	3 – 124

3.3.7 Discharge of agrichemicals 3 - 125

Rule AQL70	Ground-based application of agrichemicals using hand-held application techniques – permitted activity	3 – 125
Rule AQL71	Ground-based application of agrichemicals using techniques other than hand-held application – permitted activity	3 – 128
Rule AQL72	Aerial application of agrichemicals – permitted activity	3 – 133
Rule AQL73	Application of agrichemicals not identified in Rules AQL70 to AQL72 – discretionary activity	3 – 136

3.4	Information to be provided with resource consent applications	3 – 137
3.4.1	Information to be provided for approval of small scale fuel burning devices under section 369(11) of the RMA	3 - 137
3.4.2	Information to be provided for resource consent applications for discharges to air from non-complying small scale fuel burning devices	3 - 137
3.4.3	Information to be provided for resource consent applications for discharges to air from large scale fuel burning devices	3 - 138
3.4.4	Information to be provided for resource consent applications for discharges to air from outdoor burning	3 - 139
3.4.5	Information to be provided for resource consent applications for discharges to air from industrial or trade premises or processes	3 - 140
3.4.6	Information to be provided for resource consent applications for discharges to air from intensive farming	3 - 141
3.4.7	Information to be provided for resource consent applications for discharges to air from waste management processes	3 - 142
3.4.8	Information to be provided for resource consent applications for discharges to air of agrichemical sprays	3 - 143
3.5	Explanations and principal reasons for methods	3 – 145
3.5.1	Advocacy	3 - 145
3.5.2	Information and promotion	3 - 145
3.5.3	Investigation	3 - 145
3.5.4	Financial incentives and assistance	3 - 145
3.5.5	Canterbury Hazardous Waste Management Strategy	3 - 146
3.5.6	Regional Land Transport Strategy	3 - 146
3.5.7	Regional Energy Strategy	3 - 146
3.5.8	Non-statutory strategies	3 - 147
3.5.9	Regional rules	3 - 147
3.5.10	Resource consents	3 - 186
3.5.11	Compliance and enforcement	3 - 186
3.5.12	Response to complaints and enquiries	3 - 186
3.5.13	Assessment criteria	3 - 187
3.5.14	Territorial authorities	3 - 187
3.6	Environmental results anticipated	3 – 188
3.7	Air quality monitoring and review	3 – 191
3.7.1	Monitoring procedure	3 - 191
3.7.2	Monitoring anticipated environmental results	3 - 191
3.7.3	Compliance monitoring	3 - 195
3.7.4	Review	3 - 195

3.8 Air quality appendices 3 - 197

Appendix AQL1	Guide to minimise smoke emissions from burning under Rules AQL29 to AQL34	3 - 197
Appendix AQL2	Guide to the incineration of agricultural or animal remedy containers according to Rule AQL31	3 - 198
Appendix AQL3	Criteria for assessing offensive or objectionable dispersal or position of smoke particles	3 - 201
Appendix AQL4	Criteria for assessing offensive or objectionable dust	3 - 203
Appendix AQL5	Criteria for assessing offensive or objectionable odour	3 - 205
Appendix AQL 6	Property spray plan required under Rules AQL71 and AQL72	3 - 213

3.9 Air quality schedules 3 - 219

Schedule AQL1:	Regional ambient air quality targets (RAAQT)	3 - 219
Schedule AQL2:	Other hazardous air pollutants	3 - 222
Schedule AQL3:	Modelling design ground level concentration for priority hazardous air pollutants	3 - 227
Schedule AQL4:	Exempt heritage buildings	3 - 228
Schedule AQL5:	Minimum chimney heights for permitted large scale fuel burning devices in Rules AQL23 and AQL24	3 - 230
Schedule AQL6:	Particulate emission measurement requirement in Rules AQL18, AQL19, AQL20, AQL21, AQL24 and AQL26	3 - 232

3.10 Air quality maps 3 - 233
